Tutorial for this hair style on YouTube

By: Delicia Carr

Do you have a cabinet full of hair products? When you see a new product, do you have to go try it? You my friend might be a "Product Junkie". In order to find out what works for you, trying out different products from time to time can help. Once you find those products, you can use them to build a set regimen depending on the condition of your hair. One of the most important things to remember about natural hair is that, YOUR HAIR NEEDS MOISTURE. Retaining moisture is one of the ways to help retain length.

Products that have water as the first ingredient are ones that you should look for. Some products can be misleading, so it is really important that you read what you are about to put on your hair. Ingredients such as sulfate, petroleum, and paraben are some of the ones that you can watch out for.

Conditioners that have a multipurpose can cut down the amount of products needed. Finding that "STAPLE" product is key. Curly hair tends to be dry so finding a deep treatment that caters to that is a must have.

TAILORED TO STYLE

A Dapper Word from Elgin Marsh

Gentleman, have you been looking for a creative way to bring your style to life? Give COLOR BLOCKING a try! In case you are wondering what that is, color blocking is when you incorporate different garments of contrasting colors into your wardrobe. This strategy creates an eye-catching, yet presentable look that is not just ordinary but different. Some men tend to have a problem with putting daring colors into their wardrobe but a little color won't hurt. With color blocking you have to be BOLD & CONFIDENT. In other words either "GO BOLD, or GO HOME!" Colored pants are now becoming a must have in every dapper gentleman's wardrobe. If you don't have at least one pair of colored pants there's a chance your style may be outdated. This is just one of the many ways to help you bring your style to life this SPRING & continue to be that Suitable Representable Intelligent Neat Gentleman.

This is a great example of color blocking, Xavier Adams has a simple but professional look going on with his yellow button down, red chinos, and navy blazer.
