

Smoking policy awaits Board action

By DENISE DEISLER

A campus smoking policy is approaching final stages for approval, according to Dr. Ed Wilson, WCC President, who is still gathering input from sources on and off

campus, including members of the Board of Trustees.

Wilson requested a committee to study the issue and make recommendations.

Dr. Ned Sauls, Human Services instructor and College Council

President, chaired the committee comprised of both smoking and nonsmoking members of faculty, staff, and students, Sauls said.

The committee also considered a petition with 622 signatures calling for a smoke free campus that Glenn Smith, Accounting Instructor, presented.

The committee recommended the following:

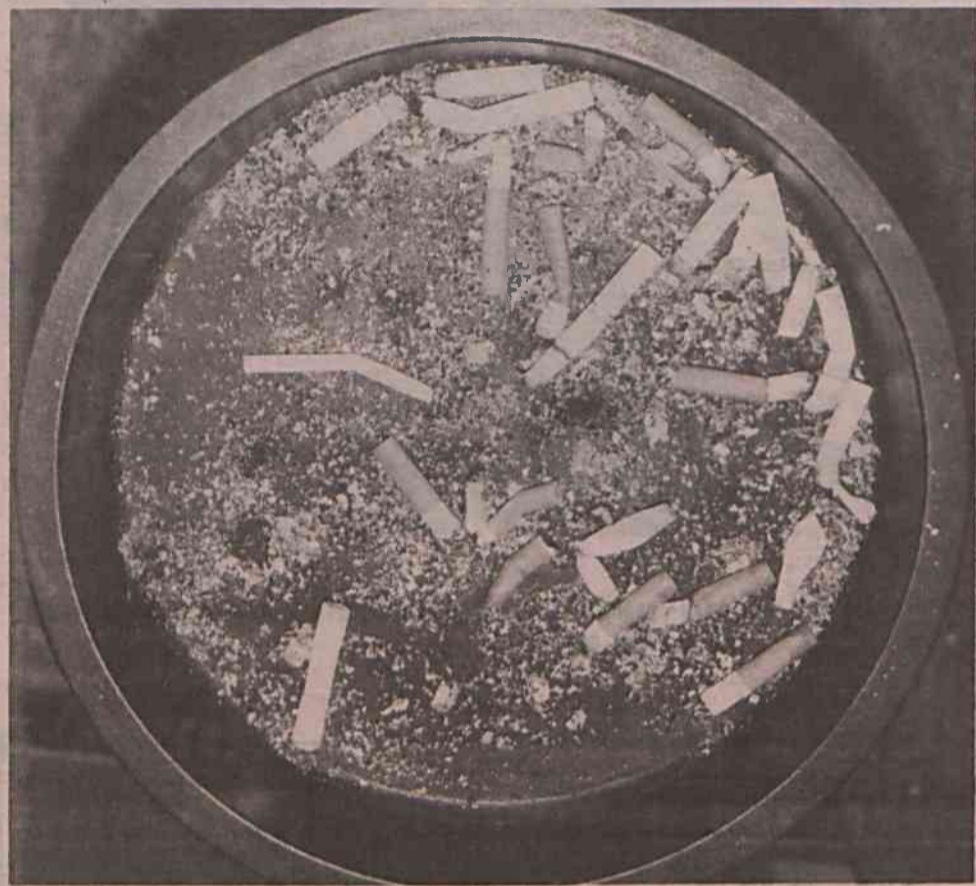

Smoking should be permitted in private faculty and staff offices provided the

door is kept closed and the office is equipped with an air filtering system.

Smoking areas provided should be enclosed and equipped with air filtering systems where possible.

All common areas, such as the Atrium and Dining Hall, should remain smoke free.

Wilson said, "I will present my recommendations to the Board of Trustees on March 23 and ask for a decision and approval."

Smokers' debris will continue under proposed smoking policy. PHOTO: Liz Meador
