College Council links elements

By PEYTON BENFIELD

The College Council, over its 20-year history, has provided a needed service to Wayne Community College.

Its primary goals are to serve as the forum for communication among the administration, faculty, and students, and to study the problems of the college, making policy recommendations in an effort to improve the overall operation of WCC.

At its most recent meeting on April 30, the Council discussed suggestions that faculty, staff, and students had submitted to the suggestion box.

Sample problems included a report about vandalism, a complaint about an instructor's attire, and the following requests: that no smoking be allowed on elevators, a separate graduation ceremony for high school students, a pictorial directory of faculty and staff, and modernization of the registration process.

Sauls will direct each suggestion to the department or division which will act upon the suggestion.

Dr. Sauls appointed a committee to carry out the evaluation of administrative personnel: Liz Meador, chair; J. E. Bass; Lee Jackson; Jerry Kornegay; and Malcolm Shearin.

Evaluation of administrative personnel last occurred in April 1991.

Jerry Kornegay shared that Tom Luten would present a report to revamp registration to the Administrative Council on May 17.

The Council unanimously approved the Shared Leave Policy that the Staff Affairs Committee had prepared and presented at the winter quarter meeting.
