Atkins replied, "I see none. People don't change their sexual behavior until they see someone they love die."

When asked how he reacted to the news of his parents illness, John David said, "I felt like I had been hit in the face by an 18-wheeler, but once I came to grip with the reality, I knew I'd never take my parents love or hugs for granted again."

Dr. Hogan responded to the closing question which asked for a reason why AIDS existed.

He quoted Elizabeth Kübler-Ross: "AIDS is here to teach us unconditional love."

In closing, Hogan turned to the Duncan family and said, "They are giving their lives and making themselves vulnerable to teach us about unconditional love."

*Congratulations to WCC Dental Hygiene students for passing national boards with an 88, 3 points above the national average*

## CLEP tests offered for first time

By ROBIN STILWELL

For the first time, WCC is offering a test that gives credit for a course.

It's called CLEP, an acronym for College Level Examination Program.

WCC offers the testing once a month at a cost of \$40 each, though some courses are not available through CLEP testing.

If WCC does not offer a subject, Seymour Johnson AFB may have the subject available for testing.

Students interested in CLEP testing should contact Vicki Lassiter in Student Services.

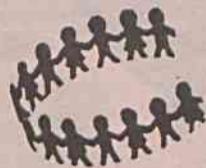

The test, which WCC personnel administer, each takes 1½ to 2 hours to complete, according to Dawson.

Then the test is sent to the Educational Testing Service with the results being mailed to the student about 4 to 6 weeks later.

Norma Dawson, who gives the test, said "CLEP testing is very successful and a good opportunity to get ahead."

Students have 3 days to register before the day of testing.

The next testing will be held Thursday, May 19, for the summer quarter.
