

Non-Traditional Students

The Non-Traditional Students Association (NTSA) held its first meeting on September 24. Officers elected include Peggy RaFuse, President, and Brenda Rowe, Vice President.

Adviser Sharon Price explained the purpose and objectives of the club.

The NTSA was established as a support group for non-traditional students (anyone over 22 years old).

Many of its members are students who have been out of the education system for many years or who are entering new jobs which require additional education.

Members get together for study sessions, socializing, and planning service activities both on and off campus.

Plans for upcoming events will be discussed at this month's meeting. Anyone interested may attend. Meetings are held the second Thursday of each month at 2 p.m. in LC131.

Peggy Rafuse, president of the Non-Traditional Students Association, asks for ideas for programs from other club members.

The Outdoor Club

The Outdoor Club met recently and elected the following officers: President, Terrence Lewis; Vice President, James Marshburn; and Secretary, Stephanie Fannin.

Currently there are approximately 20 active members, according to adviser Tim Brewer. This group is open to anyone who enjoys outdoor activities.

Several trips in the planning stages include rafting, canoeing, camping, and skiing.

Brewer said to watch CamNet for details on upcoming meetings.

African-American Males Committed to Success

African-American Males Committed to Success (AMCS) kicked off the year with a breakfast meeting on September 17.

The purpose of AMCS is to support African American male students in networking with their counterparts in the professional arena.

According to the group's adviser, Janice Hill, objectives include providing positive role models to assist these young men in making better informed educational, career, and personal choices.

A series of workshops is planned throughout the 1998-99 year offering a variety of topics and guest speakers.

For more information, students should contact Janice Hill or pick up an AMCS brochure. The next AMCS meeting was held on October 15 at 12 p.m. in LC113.
