

## Cougars Defeat Davidson

The Cougars outpaced Davidson Community College for an easy 88-72 victory Saturday night, February 8.

It was apparent from the outset that the Cougars had a definite edge over Davidson. With the hard driving Tommy Guy and George Howard going in repeatedly for layups, and with Charles Lawson hitting very accurately from the outside, the Cougars piled up a commanding loss early in the game.

The Cougars were ahead 46-27 at the end of the first half.

It was more of the same in the second period; the Cougars continued to build their lead. Then with several minutes to go, and a lead of some 25 points, Coach Linney began sending in his reserves. They played well against Davidson, but lost a few

points of the Cougars' lead. At the final whistle the Cougars were ahead by 15 points.

Tommy Guy was the Cougar high scorer with 22 points. George Howard and Charles Lawson were tied with 17 points each. Tony Hayes had 11, Stan Elkins 8, Ronnie Triplett 6, Doug Harper 2, Wiles 2, and Caudill 1.

Davidson high scorers were Meredith 15, Myers 13, Duncan 12, and Thompson 9.

## Instructor Collects Wilkes History

J. J. Anderson, with the help of a tape recorder and many of the county's senior citizens, is compiling a history of Wilkes County. Mr. Anderson is a history and fine arts instructor at Wilkes Community College.

Mr. Smink, head of the Audio-Visual Department, has been helping Mr. Anderson compile pictures of old buildings in Wilkes. The pictures are of such buildings as the old opera house, the first Crest's store, and the tannery what was washed away in the flood of 1940.

Here are just a few of the generally unknown facts concerning Wilkes County:

The first white settler in Wilkes County was the grandfather of Sequoyah, the originator of the Cherokee alphabet. His son married an Indian maiden.

The highway between Ronda and West Elkin is based with cotten.

In 1930 there were 130 schools in Wilkes County.

Traphill once had a college. When incorporated in 1921, Ronda had ten more citizens than today.

Currently, Mr. Anderson has been working with the county's older Negroes concerning the local men who fought for the North during the Civil War.

When completed, the history will be made available to the college. The students and all others connected with WCC

should appreciate Mr. Anderson's attempt to make our heritage known.
