

Cougar Cry Music Review

This is the start of a brand new section in the Cry. In each issue we will be previewing new CD/Albums.

Rob Zombie *Hellbilly Deluxe*

This album can best be described as thirty-eight minutes of head banging, hard hitting heavy-metal, with a twist only Zombie can create. The Grammy®-nominated, multi-platinum mastermind of destruction delivers an all-new raging beast of demonic mayhem featuring thirteen tales of cadaverous cavorting inside the spook show international.

Rating: **B** Above Average, a must buy

Metallica *Garage Inc.*

This 2 CD set is an excellent album if you were a Metallica fan in the 80's or if you like the "hard-rock" of the 70's and early 80's. If you fit either description or both, then this 2 CD set is a must for you to add to your collection. There are three songs on Disc 1 that stand out most, *Sabbra Cadabra*, originally released by Black Sabbath, *Turn the Page*, originally released by Bob Seger, and my personal favorite, *Tuesday's Gone*, originally released by Lynyrd Skynyrd.

Rating: **A** Timeless Classic
