

Cougar Cry Music Review

New Radicals *Maybe You've Been Brainwashed Too.*

This album pretty much stinks. Its been out for about 3 months and the only song that I have heard the radio play is "You Get What You Give" which is O.K. until you hear it so much that it makes you want to puke. But seriously that is the only song worth owning on the entire album, and if you really like it then I'm sure the local music store would have the single.

Rating: D Below average, snoozer

Everlast *Whitey Ford Sings The Blues*

Whitey Ford Sings the Blues is Erik "Everlast" Schrody's first album since the demise of House of Pain. This album can be best described as a mixture of hip-hop, folk, rock. Of course, the album also features the same brand of energetic hip-hop that generated a hit in 1992. Everlast's softer tunes show greater depth than most of his hip-hop tunes that just seem to ramble on a little too long sometimes. "Ends" poignantly shows the listener Everlast's near-death experience metaphorically. If Everlast focused more on creating more musically based pieces, this would be an incredibly solid album. Instead we have an often emotional, but also directionless album that works to a good extent.

Rating: B Above Average, must buy

Rating System:
F Worthless, send it to the recycling bin
D Below average, snoozer
C Average, not essential to adding to collection
B Above Average, must buy
A Excellent, soon to be timeless classic
