

~it~could~be~worse~

Than calling all celebrities by their first names as if you were lifelong best friends.

Than eating at **Sunset Strips** five days in a row ... it's the fastest.

Than considering hours of **XBOX Live** your daily dose of human interaction.

Than wondering why chocolate companies don't label the different chocolates in the box ... no, you don't want the disgusting **strawberry** filled chocolate for dessert.

THAN NOT KNOWING ANY OF ELON'S FIGHT SONG ... AT LEAST YOU CAN CHANT "GO ELON!"

Than putting that disgusting **strawberry** filled chocolate back in the box after you figure out what it is ... it was just a little nibble.

Than never watching "**GLEE**" until the **Britney Spears** episode this week.

Than never really making your bed, especially if you **never** get out of it.

THAN WONDERING WHY HOLLYWOOD ALWAYS SHOOT SEQUELS. **NOTHING'S AS GOOD AS THE ORIGINAL ... HELLO: "GREASE 2," "LAND BEFORE TIME" AND "FRIDAY THE 13TH: PART VIII."**

Than having a savings account to pay for the fine you will get when you finally decide to **jump into an on-campus fountain.**

Than being the only student wearing **pajamas** in your 8 a.m. ... At least you're *comfortable*.

JUST FOR FUN: horoscopes oct. 4 - oct. 10

(c) 2010, Tribune Media Services Inc.

libra (september 23- october 23)

You question the group's mindset. Clarify your reservations with visual aids. Then see if you can connect the dots. If so, then move forward.

scorpio (october 24- november 22)

Finalize one more question before you present your ideas to the group. Consider the feelings of others as you add the finishing touch.

sagittarius (november 23- december 31)

Time gets away from you as you're having fun. Everyone wants to share ideas and stir things up. Don't plan on finalizing anything just yet.

capricorn (december 31- january 20)

You want everything to be perfect. You get more done if you relax a bit and accept excellence. Very little is lost in the process.

aquarius (january 21- february 19)

Find out what delights your partner. Then adapt today's plan to accomplish as much of that as possible. You will make stunning progress.

pisces (february 20- march 20)

Your need for recognition can wait until you've completed the project. There's still plenty to do to make this the wonderful piece you envisioned.

aries (march 21- april 20)

Your favorite person suggests a plan to test your excitement level. Handle responsibilities first, then devote yourself to private time later.

taurus (april 21- may 20)

You need personal attention today. Others recognize this and contribute, but possibly not how you imagined. Clarify your needs to get them met.

gemini (may 21- june 21)

You need to express your views concerning core values. Associates may see things quite differently and could suggest viable new solutions.

cancer (june 22- july 22)

What would you really want, if you could have anything, be anything or do anything? Imagine that this is all accomplished. Then what would you create for others?

leo (july 23- august 22)

An outsider raises questions concerning your goals. A creative plan goes on hold while you sort out the implications. Family members provide key information.

virgo (august 23- september 22)

A problem could arise if you become overly anxious about tomorrow's business. Stick to tasks that must be completed today and use your talents.

if your birthday is this week ...

The universe challenges you this year to fulfill your mission at work and to develop your inspirational capacity. Make stress your internal barometer that measures how close you come to the mark with every activity you deem worthy of attention. Romance may pick up for you now. You need the warmth of contact with others, and you have plenty of imaginative ideas about how to spice up relationships. Don't forget coziness in the mix. Your significant other will respond to tender little acts of love.
