

GENTLEMEN

NO SOCKS ALLOWED

Let your feet breathe a little this spring. Classic brown loafers will always be a staple item, but give them a spring vibe with khakis or a pair of light-wash denim.

MASTER THE LAYER

The art of layering in the spring can be a tricky one, but if done correctly, it works perfectly. The key is keeping the colors bright and the pieces light. Pairing a button-down with a cardigan is the perfect outfit for a cool spring evening.

TICK-TOCK

Give your wrist the time of day this spring. Literally. Men's watches are a great addition to any wardrobe. Keep it simple with a brown or black leather watch for a clean-cut look.
