

THE GUILFORDIAN

VOLUME I.

GUILFORD COLLEGE, N. C., FEBRUARY 17, 1914.5

NUMBER 15

GUILFORD LOSES BOTH GAMES

Guilford's trip in which they played Trinity at Durham, and University of North Carolina at Raleigh, was disastrous to the home team. Our boys lost to Trinity Friday night by the score of 36 to 58, and Carolina won over us 27 to 45. In the first game the boys put up a plucky fight, but they were no match for the greater height and weight of their opponents and were clearly out-classed. The passing and head-work was commendable, but the home five could not locate the basket.

At Raleigh they started well against Carolina, and seemed to have plenty of life, but they did not seem to be able to get together during the whole game, and played far under form. For Carolina, Tandy seemed to have no difficulty in locating the basket, and Long also was in good form. Jones, Groome, and Semans each shot three goals. The line-up of the two games was as follows:

Guilford.	Trinity.
Jonesr.f.	Carver
Woodl.f.	Siler
Groomec.	Neil
Semansr.f.	Wooten
Hinklel.f.	Thorn

Field goals: Wood (3), Jones (5), Groome (4), Semans (2), Siler (10), Carver (5), Neil (2), Wooten (7). Foul goals: Wood (10), Siler (6).

Guilford.	Carolina.
Woodr.f.	Johnson
Jonesl.f.	Long
Groomec.	Tandy
Semansr.f.	Davis
Hinklel.f.	Tennant

Field goals: Wood (2), Jones (3), Groome (3), Semans (3), Hinkle (1). Foul goals: Wood (3), Long (5).

The local Soccer season was closed Thursday afternoon when Archdale and Cox Hall tied for the championship, the score being 1 to 1. Remarkably good playing was exhibited, and keen rivalry was shown. The goals of the opponents were threatened several times, but each managed to save themselves. Practically the whole of the latter half was played in Archdale's territory, but the ball could not be put through for the necessary goal to win.

ANIMAL EXPERIMENTATION

The lecture given by Prof. Geiser Saturday night was different from anything that had been given here this year, which grouped with the fact that it was of true educational value made it enjoyable to the entire student body.

He first showed us how the mission of animal experimentations was hopelessly misunderstood. By means of such animals the guinea pig and the rabbit, theories have been worked out that have lowered our death rates greatly in many diseases.

The prevention for such germ diseases as diphtheria, smallpox and fever has been made possible through biological experiments. By means of statistics taken from some of the largest cities in the United States and some foreign cities he showed us how the death rate caused by diphtheria has decreased due to the discovery of antitoxin. And if we go back one step farther we find that the discovery was made possible by means of the lower animals. He also pointed out that where the experimentation had been carried on most extensively the mortality rate had decreased fastest.

Another important aspect of this phase of work was the fact that persons who contracted these contagious diseases had a greater chance of recovery due to the increased knowledge of the disease, which science has gained through animal experimentation.

The whole lecture made very clear the immense service which scientists are rendering humanity through their experiments with the lower animals.

BEQUEST TO THE GIRLS' AID FUND.

For some years Miss Clara D. Willits, of Moorestown, N. J., was interested in the work of the Girls' Aid Committee of North Carolina Yearly Meeting and from time to time made contributions for its support. Upon her death it was found that she left her property amounting to about \$25,000.00 in trust first for her sister and a friend, and then to be held in trust by the Board of Education of the Five Years Meeting, the proceeds by said board to be applied mainly for the purpose of advancing and training in domestic and manual work or domestic science at Guilford College.

FINAL DEBATE

The final inter-class debate and the one to decide what class will have its name engraved on the silver cup this year, will be held in Memorial Hall March 27, at 8 o'clock. The contending classes are the Juniors and Sophomores. The Juniors will be represented by the same team as last fall, namely: Fred Morris, A. L. Riddick and T. G. Perry, while the Sophomores will be represented by a slightly different team composed of Rhesa Newlin, Jesse Garner and E. A. Moore. Both teams have won a victory and this final battle should be hotly contested.

The question for discussion is: Resolved, That the President of the United States should be elected for a term of six years and be ineligible for re-election. The Juniors will uphold the affirmative, while the negative will be defended by the Sophomore team.

THE PEACE CONTEST.

On last Saturday evening at 7.30 o'clock in Memorial Hall was held the fourth annual Peace contest. The object of this local contest is to determine who shall represent Guilford in the State contest to be held in Raleigh February 19. Prof. Davis presided and in his introductory remarks stated that Guilford had been among the leading colleges of the State in the inter-collegiate peace work and that two years had elapsed since we had led the colleges we should bring home some honors this year.

Four contestants entered and each gave his oration in a creditable manner. In fact the judges found no little difficulty in reaching a decision. The following were the speakers and the titles of their orations: "Our Nation the Lighthouse of Universal Peace," C. R. Mitchell; "Education and Peace," E. A. Moore; "Christianity versus War," W. A. Julian; "A Century of Peace," F. H. Mendenhall.

As judges Rev. C. E. Hodgkin, Rev. F. E. Smith, of Greensboro, and Mr. G. S. Boren, of Pomona, acted. They decided in favor of Mr. Moore and Rev. Hodgkin delivered the nominal prize of five dollars given by the local work to help defray expenses in representing our college in the State contest.

DR. J. J. HALL VISITS COLLEGE

Dr. J. J. Hall, Director of the South Atlantic States Department of the American Peace Society, conducted the 11 o'clock service Sunday morning. His theme was "Reaching Forward." In his forceful way he showed us the importance of remembering the past in so far as these thoughts help us to become better men and women. It is helpful for us to remember past experiences and people whose lives have been a living example of Christ. But while it is important for us to remember the past and be considerate of the present yet the chief thing for us is to be concerned with our future destiny.

Most of us are at that stage where we are laying the foundation for our future lives, and it is important that we lay a solid one. "Sow a thought and reap an act, Sow an act and reap a habit, Sow a habit and reap a character, Sow a character and reap a destiny."

If we would not put so much stress on the doctrine of the freedom of the will, but commit our ways unto the Lord and trust in Him as our Savior our future life would amount to more because it would be in accordance with His will.

In conclusion he cited a life of faith, love, knowledge, and service as a goal toward which to strive.

At the evening service Dr. Hall recounted in a very interesting and vivid manner some of his adventures while in the war zone last summer. He was attending a peace conference at Constance, Germany, when hostilities broke forth. His description of the mobilization of troops, the agitation of the masses and the annoyances he experienced in getting to England were realistic in the extreme. His whole talk was greatly enjoyed by an unusually large audience.

Troy R. Short, who dropped out of school about Christmas, has returned to resume his studies. Mr. Short was until he left school a member of the GUILFORDIAN staff.

Postmaster A. N. Bulla, of Randleman, spent Saturday night and Sunday at the college with his daughter and son, Mary Allen and Robert.
