GUILFORD COLLEGE, N. C., MARCH 16, 1921

No. 21

COLLEGE CAMPUS COMPLETELY RENOVATED

Every Student and Every Member of Faculty Take Part.

An event, unique in the life of Guilford students now on the campus, occurred Thursday afternoon, March 3rd, when the entire student body and Faculty set aside the regular routine of work and with one accord turned themselves into cleaning brigades to rid the college green of winter's accumulation of leaves and debris.

This undertaking of a recently forward organization of faculty and students for the protection had its beginning in a visit to the department of the State and in the admirable execution of its first it has demonstrated its worth, and ability to the college community.

Under the direction of Professor Pancoast, Ruth E. Outland, J. C. Newlin and H. G. McBane groups of from ten to twenty students were assigned to different leaders and each leader was given a division of the campus or some building as his part of the whole scene of work.

The entire campus was raked clean of leaves, the shubbery cleaned and pruned, several dead trees were removed and the buildings themselves came in for a share of the general clean up.

After the task was completed a picnic supper was served on the lawn, followed by a short social. Later in the evening Dr. Hobbs spoke to a joint meeting of the Y. W. C. A.

As an example of splendid cooperation and whole hearted college spirit the work of this day has few equals and no superiors among the students,—an assertion of a will to do something for Guilford.

PROFESSOR L. L. WHITE VISITS A NUMBER OF PUBLIC SCHOOLS

Professor L. L. White visits several schools in Forsythe County during the past week. On Wednesday he was in Winston-Salem. While there he talked to the Senior class of the High School.

On Friday he visited Germanton upon the invitation of Mr. Shields Cameron. Mr. Cameron is a member of the class of '19. At present he is principal of the Germanton High School. During Professor White's stay in this town he spoke at a public meeting in the interests of the consolidation of five schools in and around Germanton. Professor White also found a number of people looking forward to entering Guilford. Such a report is very acceptable to the readers of the GUILFORDIAN. He also reported that in Winston-Salem he found a growing interest in the advantages of the small college.

PRESIDENT BINFORD MAKES

QUICK TRIP TO BALTIMORE

President Binford went to Baltimore, Tuesday the eighth. The trip was taken in the interest of the college.

PLAN TO REDUCE COLLEGE EXPENSES.

College Business Manager Proposes to Manage Archdale.

Mr. Edgar Farlowe, business Manager of the college, is working on the probable remodeling of Archdale Hall. The plan proposed is to form a Boy's Club and have it organized and run on the same plan as New Garden Hall is now operated. Such a scheme will more than likely result in more students for Guilford.

Since nineteen hundred and eighteen no boy's boarding club has been in operation. There has been some demonstration in the past two years for a boys club. The plan which Mr. Farlowe is considering is different from the plan of old boys' club. It will require the boys who room in Archdale to do nearly all the work connected with dormitory life. This will mean a saving of something like one hundred dollars per school year to each boy who rooms in Archdale.

Many boys will wish to take advantage of this opportunity to reduce school expenses. The rooms in Archdale though not as attractive as those in Cox Hall, which is one of the best equipped dormitories in the South are much more attractive than those in many college dormitories in this State. The work which each student will be required to do would consume about one hour per day. This means that each student will save more than fifty cents per day by doing only one hours work.

GIRLS ATHLETIC DIRECTOR RESUMES INTERCLASS

All those interested in the progress of the athletic work among the girls will be glad to know that Miss Mildred Crabb the physical director has sufficiently recovered from a case of staphylococcus infection to allow her to again take up her work. Although an attempt has been made to keep the work up, the need of one whose entire time could be devoted to the work was felt.

Miss Crabb has arrived in time to get affairs well under way for the final quarter of the school year. The basket ball season is being terminated by a series of class and well bought class games. Loyalty to their respective classes has brought girls out on the floor when all other appeals failed.

The sunshine and wind have brought tennis courts into fine shape and under direction of the tennis manager the courts are kept occupied. Preparation for the spring tournament is being made.

Baseball will have its rightful place in the spring activities and a series of interesting games is anticipated.

There have been many draw-backs this year but the co-operation of the girls has kept the year from being a failure and and caused the standards of the Y. W. C. A. to be raised. With the hope of such co-operation in the future, the physical element of Guilford girls will not fall short of a high mark.

MR. ANR MRS. GURNEY BINFORD SOON TO VISIT GUILFORD

Mr. and Mrs. Gurney Binford are expected this week to visit Dr. and Mrs. Binford. Mr. Gurney Binford is a brother of Dr. Binford. Mrs. Gurney Binford was graduated from Earlham college in the class of 1896.

Mr. and Mrs. Binford are missionaries in Mito, Japan. This is a town seventy miles north of Tokio. They are members of Canada yearly Meeting and are sent out by this meeting and are sent out by this meeting. Mr. Binford has been in this work since 1893.

Mr. and Mrs. Binford are given a vacation every seven years. The last time that they were in America was during the summer of the marriage of Dr. and Mrs. Binford.

MARY MILES MINTER IN "SWEET LAVENDER"

On Saturday evening March 12th quite a large audience was present to witness the movie, "Mary Miles Minter in Sweet Lavender." Seemingly this movie was a better portrayal of real life than the ones preceding. The story was a romance with a college setting—with student acting just as they do today in most colleges.

The College Orchestra furnished music for the occasion which added much to the entertainment of the evening.

JIM NEWLIN ELECTED CAPTAIN OF THE BASEBALL TEAM

A. J. Newlin was recently unanimously elected captain of the 1921 base ball team. H. L. Johnson who was elected to lead the team this year failed to return to Guilford. This is "Jim" Newlin's fourth and last year in College base ball, having occupied the "hot corner" of the diamond for three years. "Jim" has twice lead the foot ball squad as captain of the team. Once in his sophomore year and again during the last season.

STATE UNIVERSITIES

Kansas leads in the number of students in her own state university in proportion to the population of the state. For every 10,000 inhabitants in the state, there are the following number of students in the respective state universities: Kansas, 27; Michigan, 24; Minnesota, 22; Iowa, 21; Nebraska, 21; Wisconsin, 19; Indiana, 15; Oklahoma, 10; Illinois, 8; and Missouri, 8.

Great interest still centers in the Hebrew University on the Mount of Olives. It is planned to make it the world center for Jewish culture and education. A collection of books is being made from all over the world. One collection of 40,000 volumes has been given. Among the world-famous Jewish scholars who have joined the faculty of the university are: Prof. Albert Einstein, author of the new theory of relativity; Professor August Von Wasserman, discoverer of the blood test which bears his name; and Prof. S. Freud, the psycho-analyst.—Exchange.

DOCTOR L. L. HOBBS ADDRESSES CHRISTIAN ASSOCIATIONS

Co-operation the Theme of His Talk.

At six forty-five, after all the working students had been given time to refresh themselves, the entire student body assembled at Memorial Hall. Here, to this joint meeting of the two Christian Associations, Doctor L. L. Hobbs made his first public address since his recovery from his long illness. Practically every student and member of the faculty were there to hear him.

Doctor Hobbs began his talk by renewing the day's work on the campus. The theme of his talk, closely fitting in with what the students had just accomplished, was "Co-operation."

"By the cooperative efforts of men and women, all things that are to be done and need doing, can be done." There is no need to wait and pray for some one to do the work. We want to dignify the importance of the activities of men and women. What good would it do to say go and be clothed, of fed, and put forth no effort? We can't stress enough the importance of the cooperative activities of men and women."

The speaker then explained that pleasure is found in doing even the meaner tasks. But the pleasure can only come in performing the work well.

There was an expression of deep regret at the passing of the old trees from the campus. The changes in the campus correspond to the changes in the student body. The old poplar that was pelted by baseballs forty years ago was one of the trees disposed of. One bit of information that most of the students received for the first time, was that the campus at one time was dotted with chestnut trees.

"Great deeds are most easily achieved in that age when great deeds are held in highest esteem." We are influenced by the very atmosphere that surrounds us. Education should be such that our inmost spiritual aspirations will be growing better due to the co-operation of other people. "It is impossible for a man to reach to any great height by himself. We must all rise together, or we will all stay down here together."

Doctor Hobbs talk was not a long one. It was, however, one which appealed to every one present, as was evidenced by the closest attention that could be given a speaker.

THE MEN OF THE BASKET BALL SQUAD WHO WILL RECEIVE LETTERS.

Seven basket ball men will soon be awarded honors for their work during the past season, having satisfactorily filled the requirements entitling them to a letter in basket ball this season. Only one man on the squad, Captain J. G. Frazier, gets a star. Those having won letters are; H. Raiford, J. C. Newlin, Tom Cox, F. Lindley, J. W. Frazier and H. G. McBane. Special mention should be made of the following men who have played in some varsity games and have borne the brunt of work on the scrut team; Mackie, Crews, Tate and Stout.
