

### "TENACITY OF PURPOSE."

The Subject of L. L. William's Talk  
To Y. M. C. A.

Y. M. C. A. Prayer meeting was conducted Thursday night by Lyndon Williams.

Mr. Williams chose as his topic for the evening "Tenacity of Purpose" and based his talk on that old saying familiar to all; "If you don't succeed at first, try, try again." "Have a purpose and then stick to your work until you have accomplished this purpose. 'He who works and waits, wins.' Failure comes first, success last. Everything that is good has to fight for existence in this world and the gospel of Christ, which is supreme, is the hardest fight waged. Thousands of men have failed in life because they have not obeyed the fundamental principles laid down by Christ. One must exercise will power in trying to live for Christ. Perseverance in earthly life may lead to temporal rewards, but persistency in living for Christ will result in life everlasting. Perseverance in society work, on the athletic field and in the class room result in the joy of work well done, but perseverance in a Christ-like life will result in everlasting joy. 'The only failure a man ought to fear is failure in cleaving to the purpose he sees to be best.' The watch word of all should be 'Never give up.'"

### NEW OFFICERS OF Y. W. C. A. INSTALLED

Mabel Ward President.

Since Thursday evening, April 14th, was the regular time for the installation of the Y. W. C. A. cabinet, the entire time of the regular meeting was given over to business. Each member of the outgoing cabinet gave a full report of her year's work. After each member gave her report her place was given over to her successor who received a bunch of flowers as a token of good wishes for a successful year in her new position. The members of the new cabinet are Mabel Ward, president, Helen Bostic, secretary; Isabel Pancoast, treasurer, Clara Henley, undergraduate representative; Elizabeth Yates vice-president; Marianna White, chairman of Bible Study committee; Ruth Reynolds, chairman of Religious Meetings committee, Allene Johnson, chairman of World Fellowship committee, Elizabeth Cude, chairman of the Social Service committee; and Eva Holder, chairman of the Publicity committee.

### STUDENT'S GOVERNMENT

(Continued from page one)

tempers government always with love. Also the kind of government under which its citizens keep faith with one another?"

This type of government, Doctor Gaynes believes, develops the highest type of womanhood for it develops strength and makes girls realize their responsibility. No person can live on the principles of honor without developing a strong character.

The second point was brought out in the last session which was given over to constructive discussion in training for better citizenship. All of the representatives felt the need of this work in their colleges and expressed their desires for more all-round women citizens. Suggestions in the form of clubs, leagues, lectures and special studies were given by several girls.

### CONFERENCE OF "Y. W."

(Continued from page one)

thought that the living Christ can not be really visualized in a complete recognition of all his characteristics, but that he is a spirit who permeates the lives of those whose hearts are full of "Divine Love" To allow this spirit one can not draw his conceptions of Christ from the Christ whom the Y. W. C. A. knows or from the Christ whom the church knows or even from the Christ whom her personal friends know. She must have a definite experience and be able to say, "I know in whom I have believed." With the right conception of Christ the girl must have a religion which is not something separable and distinct from all the other interests of life but a religion which will permeate her other activities, a religion which will give God a right of way in her imagination, her humor and her life.

Miss Lumpkin made it very plain to the conference that if we could look at our campus through the eyes of

Jesus we would be able to see how to change some conditions and thus line up to the true purpose of our association.

### MEETING OF MATHEMATIC DEPARTMENT

(Continued from page 1.)

The work in Astronomy was well represented by Messrs. Taylor, Harris, Merriman and Farlow and Miss Casstephens. The legends and myths of the stars were interestingly retold. The most important constellations were pointed out on a chart of the heavens.

After the program was completed the assembly adjourned to meet in the cooking laboratory, where hot chocolate and saltines were served.

This is the first meeting of its kind for this department. Much credit is due Professor Pancoast in arranging a program of so much interest and enjoyment.
