**INDIA DISCUSSED BY
MRS. WILLIAMS, AT
Y. W. C. A.**

"Why we are interested in the girls in India" was the subject for the Thursday evening prayer meeting, which was led by Mrs. Annie Williams, a former missionary to India. Mrs. Williams appeared in the costume of a Christian woman in India which made her talk more effective. She told of the women in the homes of India connected with married life. The word "wife" is never spoken as they do not know the meaning of it. The woman covers her face when a man enters the home and she lives behind walls. In some castes the woman does not see her husband before marriage. Christian marriages have been introduced by the missionaries.

In Indian homes the woman's room is in the rear of the house and she must obey the men and get permission from all in the home who are older than herself when she wishes to leave the house. Servants must accompany her and her face must be covered.

Christianity has given woman more liberty in India. Some of the castes have begun to realize that they cannot cope with Christianity unless they change some of their laws. For this reason laws have been made permitting woman greater freedom. Mrs. Williams spoke of a home in which there was a husband who took active steps to have his wife educated.

Mrs. Williams ended her talk with a statement of the open doors for service in India. The women of India have pleasant dispositions and good qualities and missionaries get

much pleasure in working with them. Closing the meeting, Ruth Outland made a short talk on the Student Friendship work and what war has cost the European students. After telling of their conditions and needs, she asked each girl to give the money that she would spend in one week for extras to the people who are in such desperate conditions.

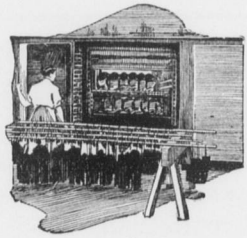

**Zatasians Observe Wash-
ington's Birthday**

President White called the Zatasian society to order on Friday evening, Feb. 24, and appointed Mabel Ward as critic. In honor of George Washington's birthday the literary exercise centered around this great president.

First a brief summary of the life of Washington was given by Viola Tuttle. The second number was a debate, Resolved, that Washington was a greater benefactor to his country than Lincoln. The judges decided in favor of the affirmative which was upheld by Folsom Neal. The speaker on the negative was Alta Rush.

In her usually charming manner Margaret Levering gave an enthusiastic and patriotic reading, "Our National Play." An instrumental duet, Anthony's "Salute to the Colors" Given by Myrtle White and Alta Rush was much enjoyed, both because of the stirring music and because it was in keeping with the theme of the program.

The last number was a diversion as this part of the program had to be changed at the last moment. It was a reading by Allene Johnson entitled "Josh Billings On Courtin'."

What Is Water Japan?

JAPAN—not the country but a metal-coating varnish—and your morning bottle of milk. Totally unlike, yet associated!

Ordinary japan consists of a tough, rubbery, tar-like "base" and a highly inflammable "solvent." The solvent dilutes the base so that the metal may be coated with it easily. The presence of the solvent involves considerable fire risk, especially in the baking oven.

Milk is a watery fluid containing suspended particles of butter fat, so small that one needs the ultra-microscope to detect them. An insoluble substance held permanently in suspension in a liquid in this manner is in "colloidal suspension."

The principle of colloidal suspension as demonstrated in milk was applied by the Research Laboratories of the General Electric Company to develop Water Japan. In this compound the particles of japan base are colloiddally suspended in water. The fire risk vanishes.

So the analysis of milk has pointed the way to a safe japan. Again Nature serves industry.

Connected with the common things around us are many principles which may be applied to the uses of industry with revolutionary results. As Hamlet said, "There are more things in Heaven and earth, Horatio, than are dreamt of in your philosophy."
