VOL. IX.

GUILFORD COLLEGE, N. C., OCTOBER 11, 1922.

No. 3.

Guilford Defeats Lenoir in Second Game of Season, 31-7

Captain McBane Stars for Guilford

With the Quakers playing consistently throughout the game. Lenoir fell before the superior driving power of Guilford and was overwhelmed by a score of 31 to 7 on her home battle ground Saturday, October 7.

Lenoir's only score came as a result of Hawn's interception of a forward pass and his return of 65 yards.

The game was started with Guilford receiving. By a steady drive Guilford was able to advance the ball to within two and a half yards of Lenoir's goal line. There Lenoir's defense put up a determined resistance and three attempts were necessary before Frazier was able to go through the line for Guilford's first touchdown.

The Quaker lads kept up their drive toward victory by scoring a touchdown in both the second and third quarters and augmented this score by pushing two touchdowns over in the final quarter. Owing to a poor forward pass, which was intercepted, Lenoir was also able to score a touchdown in the fourth quarter.

Lenoir shows marked improvement over last year when the score was more than double that of this year. The Lenoirites put up a strong fight throughout the game and at times displayed a strong defense, holding the Quakers for downs.

Hawn's interception of a forward pass and his long run of 65 yards, and the playing of Brown, Carpenter and Cox were the features of Lenoir's play.

Knight, Thomas and Frazier in backfield did good work for Guilford. In the line Warrick and Nicholson showed up best. "Block" Smith at right end also lived up to his nickname.

Probably the most astonishing man in the game was Captain McBane of Guilford. Not only did he play a good defensive, but several times he broke through Lenoir's line to block punts and to cover fumbles. Twice he broke through the line and blocked punts behind Lenoir's goal line for touchdowns. The ball was snapped, Lenoir fumbled, McBane broke through the line, scooped the ball up and raced across for his third touchdown.

The Guilford team showed the effect of more training since last weekend of the experience gained in actual battle. With two week's practice before the game with Wake Forest on Oct. 27, this battle between the Baptists and Quakers should prove interesting.

Referee, Williams, Carolina; umpire, Abernathy, Carolina; headlinesman, Crisp and Leonard. Time of periods, 12 minutes.

Football Game Changed

The game which is scheduled to be played at Wake Forest on the 28th of October has been called off, and instead Wake Forest will play Guilford on the 27th of October. Make note of this change.

NEW GARDEN MEETING COMBINES PLEASURE AND PROFIT AT PIE SOCIAL

The New Garden monthly meeting met at the church Saturday evening, Oct. 7, to occupy themselves in "profit, pleasure and in eating pie," as the posters put it.

The evening program began with music, which was furnished by the college orchestra. Charade groups were then formed among the guests, and different items in the church budget were enacted and guessed by the other groups.

The main object of this gathering, however, was to discuss the financial status of the church. Short speeches were made by Dr. Binford, Prof. L. L. Hobbs, Mrs. Annie E. Williams, Miss Ruth Lindley, Alpheus White and Charles Lambeth. Later, pledges were made, Robt. H. Dann and J. D. White checking them as they were announced, on a huge pie drawn on the blackboard.

After this phase had been duly presented the meeting adjourned to the basement of the church to be served with pie and hot chocolate.

Several of the college students and faculty availed themselves of this opportunity to become acquainted with the members of the church.

Dr. Hobbs Speaks at Chapel

"Contributions to intellectual life," was the theme of a chapel talk given by Dr. Hobbs last Monday morning. "We should be as happy as we can," said Dr. Hobbs, "and the only way to be happy intellectually is by mastering the subjects set for our work."

He continued by showing that failure in any subject can often be traced to the lack of interest. He stated also that probably all of us feel that we could have made additional effort toward something we have done.

Guilford Tennis Men Meet Greensboro High

On Wednesday afternoon, Oct. 4, the Guilford College tennis players meet the tennis team of the Greensboro high school for a practice game on the college courts. Due to the dry weather, the courts were in poor shape, and the game did not attract much attention.

H. T. Lefler, an old Trinity player, and Earl Barger of the Greensboro high school in a hard fought game, won by a score of 6-4; 1-6 and 6-4, from Benbow Merriman and Fred Winn.

William Seatt and Thomas King of Greensboro, won from James Joyce and Marvin Shore, 6-4, 6-4.

Sam Harris and John Reynolds in a very lengthy game lost to Clement Penn and Jack Causey, 1-6, 6-4 and 6-4.

Benbow Merriman in a game of singles won from Stone by a score of 6-1, 6-2.

CHORAL SOCIETY TO GIVE BOHEMIAN GIRL

The choral society of Guilford College which was re-organized some three weeks ago, has announced definitely that the opera, "The Bohemian Girl," by W. G. Balfe, will be presented in concert form sometime in December.

The prospects for the chorus this year are considered unusually good since there is an especially large corps of tenor voices and every one is showing a great deal of interest in this fall's presentation. Although not quite as difficult as the score of "Faust," which was presented last year, "The Bohemian Girl" contains many famous choruses and airs, among which is that gem for tenor, "Then You'll Remember Me," occurring in the last act.

It has also been announced that the leading artists of the state will be engaged for the solo parts, and supported by a large chorus there is no doubt but that this will be the outstanding musical event of the year.

The society is again under the able directorship of Prof. J. W. White, with Miss Beatrice Byrd, accompanist. The student officials are: Hope Motley, president; Thad Mackie, secretary, and Robert Marshall, marshal.

First Student Social at New Garden Hall

On Saturday evening, October 7, New Garden hall was the scene of the first informal social of the college year.

Promptly at the ringing of the bell an expectant group of boys and girls assembled in the front hall and dining room.

The restraint of new acquaintance felt by some, soon wore off when the crowd was divided into two groups and such old fashioned games as "upset the fruit basket" and "going to Jerusalem" were entered into with much spirit.

The social committee deserves much credit for the arrangement of the hall and for the interesting games planned.

Faculty Revive Literary Club; Elect Officers.

The faculty literary club met for the first time this year on Friday evening, October 6, in Founders' Hall.

Miss Kate Smith was elected president for the ensuing year, J. D. White, vice-president and Mrs. Robert H. Dann, secretary and treasurer.

Two committees were appointed as follows:

Program committee, Miss Katherine C. Ricks, chairman; Mrs. Raymond Binford, Miss Hedwig H. Hoffmann, Prof. Robert H. Dann and Prof. J. D. White. The representatives to serve on the dramatic council are Miss M. Aline Polk, Prof. J. Wilbur Pancoast and Prof. J. D. White.

Misses Marie Beaman, Luna Taylor, and Nellie Chilton were the weekend guests of Pherlie Mae Siske at her home in Pleasant Garden.

GIRLS SHOW INTEREST IN OUTDOOR SPORTS

Among the co-eds, the interest in sports is growing daily. Tennis is now taking its place and next week the class tournament will begin. Each class will have its own tournament after which the winners from each class will meet in a tournament.

Fifty girls go out twice a week for baseball practice and are making ready for a public game. Among the new girls there are two pitchers, two catchers and a good many others who show evidence of having played before.

A new out-door basket ball court is being prepared.

Work of Dramatic Council Under Way

The first meeting of the Dramatic Council was recently held for the purpose of choosing a play to be presented this fall under the auspices of the Y. W. C. A. Several plays are under consideration; among the most favorably read are "Daddy-Long-Legs"; "Come Out of the Kitchen"; "Martha by the Day" and "Grumpy." All of these plays have enjoyed lengthy runs on Broadway and the college is assured of an excellent production just before Thanksgiving. Tryouts will be held at a very early date and rehearsals will start immediately.

The Council is composed of Miss Aline Polk, Professor J. Wilmer Pancoast and Professor J. D. White, from the literary club, supported by Eva Holder, Hope Motley and Nell Carroll from the Y. W. C. A.; Tom English, Spot Taylor and Robert Marshall, from the men's athletic association.

Mrs. Anscombe Entertains

Mrs. Francis C. Anscombe charmingly entertained her art pupils at an informal tea at the Anscombe cottage last Monday afternoon from 4:30 to 6 o'clock. Beautiful pictures and books served to keep the idea of art uppermost in the conversation. Mrs. Anscombe served delightful refreshments, consisting of tea and small cakes.

Those present were: Misses Edna Coble, Clara Coble, Helen Robertson, Edith Macon, Blanche Robertson, Aline Johnson, Virginia Osborne, Ruth Levering, Lalah Hassel, Geneva Highfall, Jamie Mae Butler, Eleanor Johnson and Harriet Pringle.

Missionary Committee Meets at Guilford

The North Carolina Yearly Meeting Missionary committee met at Guilford College Saturday of last week. It was entertained by the college in conjunction with the local Women's Foreign Mission committee. Those present were: Samuel Haworth of High Point, chairman; Clara Cox, secretary; Nathan D. Andrews, treasurer; Mrs. Samuel Haworth, Mrs. Annie E. Williams, Alice L. Walters, Pilot Mountain; Mrs. Addison Brown, Goldsboro.

Several students attended the meeting of the committee and will aid in the missionary work of the year.

THREE THEORIES FOR SOURCE OF SUN'S HEAT DISCUSSED AT CHAPEL

Molecular Theory Seems Most Rational

Prof R. L. Newlin of the physics department addressed the student body at chapel hour Friday morning, presenting impartially three theories of the source of the sun's heat. Considering the mathematical facts of the subject as wholly uninteresting to the majority of his hearers, he approached the subject from the familiar fundamental of material science, energy.

The first theory of the source of the sun's heat which M. Newlin presented is known as the meteoric theory. Meteors traveling through space at the enormous rate of 384 miles per second, generate 45,000,000 calories of heat per kilogram. When it is remembered that about 8,000,000 meteors strike the earth daily, one can easily conceive that enough would strike the much larger surface of the sun to maintain its temperature.

However, according to this hypothesis, the earth should receive 1-236 as much heat from meteors as from the sun, while in reality the amount of heat which the earth receives from meteors is negligible. Hence this theory does not find favor with modern astronomers.

"The contraction theory," said the speaker, "was outlined by Helmholtz in 1854. According to his supposition the sun contracts constantly and in such manner that it is always homogeneous. The increasing density accounts for the generation of heat."

"There is a fallacy in this theory also," said Mr. Newlin, "since it contradicts geological evidence of the age of the earth."

The molecular theory of the source of the sun's heat assumes that the gases composing the sun are in constant motion, and that the friction thus produced generates heat. This theory has been outlined by Prof. W. D. MacMillan, of Chicago University, and finds favor with many astronomers.

The subject is an interesting one and is receiving much attention in the scientific world.

Mme. Hoffman Gives Informal Party.

An informal house warming was given on Wednesday evening when Mme. Hoffman and Miss Hoffman welcomed the faculty in to celebrate their having got settled in the cottage, which has just been refurnished inside.

The hostesses served an attractive course of refreshments, tea, sandwiches and wafers.

The guests present were: Professor and Mrs. Frank Davis, Professor and Mrs. Anscombe, Mrs. Binford, Miss Benbow, Misses M. Aline Polk, Bessie Noles, Beatrice Byrd, Maud Gaaney, Kate Smith and Katherine Ricks, Professor and Mrs. Robert Dann, Professors Newlin and White.
