Tennis Court Under Repair

Tennis players will be interested to note that the tennis courts are now under repair. Top soil has been spread over the courts and they will be marked off the first of next week and made ready for use.

* * *

French Club Organized

The French students have organized a French club under the direction of Madame Hoffmann. This club meets every Monday evening at the cottage of Madame Hoffman. Upon entering the door all English is done away with, and the French language reigns.

The officers of the club are, president, Fred C. Winn; vice president, Sarah McMahan; secretary, Alice Thompson; treasurer, Ronald Chapell.

Miss Noles attended State conference of the Home economic teachers which was held at N. C. College last week end.

Haverfordians Hold Banquet

(Continued from page 1)

ute to the late President Sharpless of Haverford as one of the best friends whom Guilford ever had. The work of Dr. Nereus Mendenhall, who, after graduating at Haverford, spent so many valuable years at Guilford, was eulogized by the speaker.

Dr. Hobbs also spoke of the scholarship and valuable work done by such well-known educators as Pendleton R. King, Dr. Marshal Elliott, and F. B. Collins, all of whom were Guilford and Haverford men.

The toastmaster, Mr. Blair, in his short introductory speeches and interesting comments, upheld his reputation as master of his art. He read special letters of regret from such well known Haverford men as Dr. Dudley Carroll and Dr. Wilson Hobbs, of the University of North Carolina, John Blair, of the State department, David Blair, of the Internal Revenue Commission, and Alpheus White, Jr., of Pilot Mountain.

The students of Guilford also contributed to the banquet through the college glee club quartette, which delighted the banqueters with heartily encoed songs, and through the seniors of the of the Home Economics department, whose deft and skilled service aroused the comment of the guests.

The gathering occasioned great pleasure to the Haverford alumni present, who were: President W. W. Comfort, Walter Blair, W. A. Blair, Dr. L. L. Hobbs, Prof. J. F. Davis, W. Alpheus White, H. A. White, J. D. White, L. L. White, R. N. Wilson, Richard J. M. Hobbs, Fred Morris, Samuel H. Hodgkin, Robert Dann, Henry Davis, Walter White, Dr. Fred R. Taylor, Otis E. Mendenhall, W. G. Lindsay, and Cyrus Frazier.

Miss Lyde Bingham of Farmer spent the week end with Edith Spencer.

Ruth and Jack Ragsdale spent Sunday at Jamestown.

Mrs. J. Spot Taylor and son Edwin of Danbury spent the week end with Luna and Spott Taylor.

OPEN FORUM

Math a Higher Science; Get a Step Ladder.

Mathematics is a branch of higher science; so high in fact, that very few of us ever reach that lofty and intellectual state, where the theory of exponents disturbs us not, and quadratics are play things. Most of us stay pretty near the ground, and even then we're liable to stumble. You've got to be born mathematically inclined, if you want to do anything in algebra—otherwise you're sadly hampered. Because Math is an essential thing. It is set at the feet of green and guileless freshmen to curb and restrain their imagination, and to show them their place generally. You have to take algebra. There is simply no alternative. Why it has got to be algebra, nobody knows. Personally I think it's a conspiracy among the Math professors.

Connected with algebra, along with professors and other necessary things, is the perfect student. He invariably works all his problems, he sails calmly through the deep water of Binomial theorys, surds and equations. His teacher knows he is bright, he knows it, and so do we. In fact he is sufficiently conceited about it. And the pitying glances they give us! As if to say, "Well I never! Can't you see through that." And we can't. We are sorrowfully aware of that.

On the whole, Math is awful. We acknowledge it with a sigh, but we have to study it just the same, even if we do drip moist tears over its pages; and grope blindly in a wilderness of undetermined coefficients. There is one comfort though. You can cuss it to your heart's content; you can express yourself freely on the subject, and still get sympathy. Unless by chance you happen on a perfect student. Then of course Math is another story.

—Katherine Gheen Shields.

GETTING OUT A PAPER

Getting out a paper is no picnic. If we print jokes, folks say we are silly.

If we don't, they say we are too serious.

If we publish original matter, they say we lack variety.

If we publish things from other papers, we are too lazy to write.

If we stay on the job we ought to be out rustling news.

If we are rustling news, we are not attending to business in our own departments.

If we don't print contributions, we don't show proper appreciation.

If we print them the paper is filled with junk.

Like as not some fellow will say we swiped this from an exchange. So we did.—(K. G. U. Log Book.)

Play Brings Talent to Light

(Continued from page 1)

duction of the council to be given this year, was directed by Miss M. Aline Polk. The effective and realistic staging was due to Professor J. Wilmer Pancoast, while the business management was directed by Professor J. D. White. Fred C. Winn acted as property manager.

The college orchestra entertained the audience during the 10-minute intervals between acts.

Miss Fay Mattock from G. C. was the week end guest of Margaret Armfield.

Helen Tesh was the week end guest of Grace Smithdeal.

FROM THE PRESIDENT'S OFFICE

Guilford College maintains those laborous courses in art science and literature which time has shown will bring out the finest qualities of the mind and character, and which introduce the student to the best thought of all countries and all times and inspires him with the noblest purposes and engender within him the spirit and power of a leader, a hero.

"It takes a soul to move a body. It takes the ideal to blow a hair's breadth off the dust of the actual."

WOULD YOU LIKE AN INCOME

at 65, when your earning power has stopped or greatly decreased?

Then begin to provide for it now. You can do it by taking our Endowment Policy payable at 65—or upon your death, if before.

It is Insurance, Income, Investment.

Will you let us tell you about this?
