# THE GUILFORDIAN

VOLUME XIV

GUILFORD COLLEGE, N. C., NOVEMBER 23, 1927

NUMBER 8

## COBLE WINS FIRST PLACE SATURDAY IN CROSS-COUNTRY RUN

Freshmen of N. C. State Win; Guilford Lacking Men in Upper Places

## STOPELL CLOSE SECOND

Course Is Approximately Two Miles Long and Is Run by Winner in 9 Min., 41 4-5 Sec.

Nov. 19.—The Guilford cross country team, composed of Coble, R. Ayers, M. Ayers, Ward, Boose, Allen and Hire, met and were defeated by the freshman harriers of N. C. State College on Saturday afternoon. The score was 26-29. Coble, Guilford's star runner, finished first in 9:41 4-5, but he was pushed closely throughout by Stovall of State. The course is approximately two miles long and the time in which it was run is considered good. Coble displayed splendid form throughout, but he lacked runners to help him win the event.

The order in which the men finished is as follows:

Coble, Guilford; Stovall, State; Johnson, State; Ash, State; R. Ayers, Guilford; M. Ayers, Guilford; Allen, Guilford; Israel, State; Brown, State; and Ward, Guilford.

Guilford runners failing to place were Boose and Hire, while Shepherd and Estep failed to place for State.

## YOUNG CHEMISTS VISIT HOME OF VICKS SALVE

Guilford Chemistry Classes Visit the Greensboro Water Purification Plant. They See Entire Process

## SEE MAKING OF FAMOUS CURE

Nov. 15.—Dr. Charles N. Ott, professor of chemistry, took the two sections of chemistry one and a number of the advanced chemistry students to the city water purification plant in Greensboro, also to the Vicks Chemical factory on Tuesday and Wednesday.

At the water plant the young chemists received a detailed explanation and demonstration of the entire process of water purification from the muddy lake reservoir twelve miles away to the pools and tanks of purified crystal water ready to be pumped through the mains to the homes. By the addition of aluminum sulfate, which hydrolyzes in water to form a gelatinous white solid, to muddy water the sticks and smaller plant life are carried down into settling basins. To neutralize the acidity of the clean water, thus obtained, a small amount of common lime is added. As a final treatment a little chlorine gas is dissolved in the water in order to destroy the life of any bug or aqueous animal inhabitants generally spoken of as lower, simple celled animals or germs.

The trip was brought to a close by a dip into Vicks salve plant. Through the courtesies of the Vicks Company officials, the students saw the process of manufacturing Vicks salve from the big mixing kettles to the shipping room.

So conscientious were the visiting chemists that they were brought to tears when unruly noses were thrust into a bin of camphor or a basin of mint oil.

The only outstanding disadvantages of the trip was the scarcity of riding space in the bus, but even at that no one grumbled.

## Thanksgiving

Thanksgiving at Guilford? Yeh, the real thing! There's going to be open house. (That means anyone can go to any dormitory they wish and visit anyone they wish.) Everybody knows about that because the people are painting and cleaning and sewing on new curtains. Well, you see, for the girls it is good advertising and for the fellows, well, they don't mind making a good impression, too. But the Thanksgiving part! There is going to be turkey and cranberry sauce and all the fixin's. Then there'll be a Brunswick stew, maybe, and of course a whole evening of fun. Just wait until the next issue and we'll tell you all about it.

## DR. PERISHO IS MAKING MANY LECTURE TOURS

Is Speaking at Churches, Schools and Conferences on Topics of Present-Day Importance

"THE BIBLE AND CITIZENSHIP"

Nov. 21.—Dr. Perisho has been making varied and extensive lecture tours throughout this part of the state. He has been speaking on topics of vital interest and importance.

On October 28, Dr. Perisho attended the State Science Teachers' Convention, held at the High Point High School. Having studied extensively in Geology, especially in the west, he lectured on "The Origin and Results of the Bad Lands of South Dakota, Nebraska, and Wyoming."

October 30, Dr. Perisho went to the Hickory Grove Methodist Church, near Liberty, where he attended a Bible school convention. Here he lectured on "The Bible and Citizenship."

He has spoken recently at the Park Place Methodist Church in Greensboro on "The Spade Proves the Truth of the Bible." In High Point, he spoke to the officers and teachers of the Friends Church there. He also spoke at an evening service on "The Origin and Purpose of Education Week in the United States."

On Armistice Day, Dr. Perisho addressed the students at the Guilford High School and later to the students and community at the Colfax school. On November 13 Dr. Perisho spoke to the Friends of Deep River on "The Value of Good Literature."

## GIRLS' HOCKEY CONTEST MARKS IMPROVEMENTS

All Class Members Prove to Be Loyal Supporters—Schedule of Games Is Running Day Late

Nov. 21.—The inter-class hockey games have been followed closely by the members of the various classes. The girls have been showing good form and are playing well. Much support has been given them by class members. As it rained Thursday, the schedule for games is running a day late, but enthusiasm is still high.

The results for the games which have been played so far are as follows: Freshman 3rd vs. Junior 3rd, 2-0; Sophomore 3rd vs. Freshman 4th, 1-3; Sophomore 2nd vs. Senior 2nd, 4-1; and Junior 2nd vs. Freshman 2nd, 4-2.

A perfume and soap manufacturing company advertised a contest for slogans. Here is a slogan that came in which they could not use. It read: "If you don't use our soap, for heaven's sake, use our perfume!"

## CRAWFORD'S MEN LOSE TO LENOIR

Lenoir-Rhyne's Bears Keep the Ball in Mid-Field During First Quarter

## OWL STARS FOR L.-RHYNE

Nov. 19.—The Lenoir-Rhyne eleven crashed through the defense offered by the Guilford Quakers at Lenoir on Saturday afternoon, and chalked up three touchdowns, winning by the decisive score of 19 to 0.

Guilford kicked to Lenoir-Rhyne, who brought the ball to Guilford's 40-yard line. At the beginning Lenoir-Rhyne made a first down after which the Quakers held them for downs. Owl punted for the Bears and the Quakers retaliated with a punt that put the ball in mid-field. The playing was done near the center until the half's last minute of play when a few long completed passes brought the Bears well into the Quaker territory. Then Owl snatched a pass from Hager that gave the Bears their lead. The extra point was a pass from Hager to Winecoff.

The second half began with a Quaker kick which was well booted. The Quakers found their way through the defense and downed the ball deep in the territory of the Bears. Lenoir-Rhyne then punted to safety. After several long passes the ball went over into the hands of the Quakers who fumbled on their 15-yard line with Lenoir-Rhyne recovering the ball. Another long pass and a line plunge and the Bears marked up their second touchdown. Efforts to kick the extra point failed. Guilford kicked again and Owl returned the ball 65 yards to Guilford's 20-yard line. The Bears constantly gained ground, little by little, until Guilford was faced with the opponents on their one-yard line. Then is when the Quakers showed the old fighting spirit and

## C. B. LOOMIS SPEAKS TO Y. M. C. A. CABINET FRI.

Young Men's Christian Association Is for Development of the Body, the Mind and the Spirit

## ASKS "WHAT IS CHARACTER?"

Nov. 18.—Among the important visitors on the campus this week was C. B. Loomis, Regional Secretary of Student's Y. M. C. A. Mr. Loomis is a new worker in this capacity and he is visiting the various student Y. M. C. A. throughout his region.

He called a meeting of the Cabinet that he might discuss some of the aspects of Y. M. C. A. work. Mr. Loomis' first question was, "What is the Y. M. C. A.?" The answer given to this was, "A young men's organization for the development of the body, mind and spirit. It also aids to bring like spirits together since it is international, interdenominational and intercollegiate." His next question was, "What is character?" The cabinet in answering said that character is what a man is, or the sum total of all of one's tendencies to action. The next topic for discussion was the ways of receiving and obtaining Christianity.

It was decided that the best way to ascertain such is through discussion, study of the lives of men, and a thorough study of the life of Christ. To maintain Christianity is to live a clean life in the dormitories, class room, dining room, and campus life in general.

## PLAY APPROACHING PERFECTION

"The Importance of Being Earnest," is growing in importance every day. The cast, under the capable direction of Mr. Furnas, improves before your very eyes. We all know that perfection is only a theoretical ideal, but in this case the play is approaching perfection to the nth degree. As the lioness lovingly licks her cubs into sleek cleanliness, so Mr. Furnas is deftly and surely putting on the finishing touches in making this a successful play.

The stage is being improved, extensive advertising campaigns are planned, details are being seized upon to eliminate and retain, according to their value. In short, nothing will be left out that will help to put out a play that will long be remembered for its acuteness, humor and acting ability.

## MAX NOAH PRESENTS SUCCESSFUL RECITAL IN THE AUDITORIUM

Large Audience of Community and College People Hear Professor Max Noah

## MISS CAMPBELL SINGS

Plays Bach and Paganini-Liszt With Great Ease and Gives Fine Interpretation to "La Campanella"

Nov. 19.—The students of Guilford College are at one in saying that the recital Saturday night was the best one that has been given here in recent years, when Mr. Max Noah, head of the Department of Music, gave a piano program, assisted by Miss Ena Campbell, contralto.

Mr. Noah in his Bach "Toccata and Fugue," gave to his audience a very striking interpretation of Bach's ideas in fugal composition. The ease with which he played this number was very noticeable. Probably the best number of Mr. Noah's was "La Campanella" by Paganini-Liszt. In this one could hear the bells and sounds around Lake Geneva which inspired the composer to write this number. The extremely difficult passages in it, as double chromatic sixths, were played easily and precisely.

Miss Campbell's songs were sung with unusually good interpretation and expression. Especially well did she appear in her French aria, "Connais-tu le pays?" and her audience was particularly delighted with her last number, "The Velvet Darkness." Mr. Noah played her accompaniment.

The program was as follows:

1. Toccata and Fugue, d minor, Bach-Busoni.

2. Connais-tu le pays? ("Opera Mignon"), Thomas.

3. Sonata, d minor, Beethoven; Largo Allegro, Adagio, Allegretto.

4. Trees, Rasbach; The Valley of Laughter, Sanderson; The Velvet Darkness, Reddick.

5. Nocturne, e minor, Chopin; La Campanella, Paganini-Liszt.

## CAROLINA WOOD VISITS AT GUILFORD COLLEGE

Speaks in Chapel, Telling of Rise of Peasant Class in Mexico and the Growth of Their Power

## IS ON MISSION OF GOOD WILL

Nov. 15.—The chapel talk Tuesday morning was given by Carolina Wood, a Friend from New York on her way to Nicaragua on a mission of goodwill.

She declared that this is the most exciting world she has ever lived in. Among other things she is very much interested in Mexico and its relations with the United States. Last year, judging from the little work in the mission field, we were not trying to be the nice big neighbor we should have been.

Two-thirds of the inhabitants of Mexico are Mexican Indians who have been crushed down for 300 years. They want back the land which was taken from them, but the upper class say to work and pay the taxes and they will manage the land.

Then, not long ago, a man of the governing class discovered that the United States believes in getting and giving a chance, which is the ideal of education. On his farm of 2,000,000 acres he started schools for the Indians and gave them back their garden farms along the river. This act caused all the Indians in Mexico to demand the same privileges. Consequently they revolted and made president the man who had given his Indians farms and schools. Now it is a question whether

## IRA G. NEWLIN RESIGNS MANAGING EDITORSHIP

Guilfordian Board Elects Alice Hazard to Fill This Vacancy and Bernice Henley Is Selected Secretary

Nov. 17.—At a meeting of the Guilfordian board the resignation of Ira G. Newlin from the managing editorship was accepted and Alice Hazard was elected to serve in his place until the regular election in December. Bernice Henley was chosen to act as secretary.

Plans are under way for running a new column on news from other campuses. This will be under the supervision of Clare Trueblood. Student criticism of the paper is to be solicited in the form of a questionnaire in the near future.

## GUILFORD JR. VARSITY WINS POMONA GAME

Guilford Has Advantage in Weight and Experience, But Visitors Put Up Good Fight

## GOODMAN STARS FOR GUILFORD

### GUILFORD JR. VARSITY—3

Nov. 15.—In an interesting game of football the Guilford College Junior varsity defeated Pomona High team here last Tuesday, by a score of 31 to 0. The outcome of the game was never in doubt for the lighter high school team could not gain through the line, nor was their passing very good.

Guilford backs skirted the ends, passed, and ripped up the Pomona line almost at will. For Guilford, Cheek played a very good game, catching a number of passes for long gains and in the last few minutes of play intercepted a forward pass and ran for a touchdown.

Goodman, Buyck, and B. Newling also played well.

For Pomona the whole team played well and put up a good fight, but could not compete with Guilford's advantage in weight and experience.

Referee: Marshall; umpire, Hoyle; head linesman, Trivette.
