

## Dr. Newlin Returns From 'Second Home'; Helped Establish Center

By C. W. McCRAW  
On August 5, 1949, Dr. Algie L. Newlin and family came aboard the New Amsterdam, pride of Dutch passenger ships, at Rotterdam, Holland. No doubt, each member of the family was reminiscing over cherished friends and experiences they were leaving behind in Switzerland and neighboring countries, but were just as anxiously awaiting renewed friendships and acquaintances in U. S. and Guilford. For Dr. and Mrs. Newlin, this was the third stay in Switzerland. They were married in Geneva in 1930. Dr. Newlin received his doctor's degree in political science from the University of Geneva. They call Geneva their second home.

Early in the fall of 1946, Dr. Newlin was selected by the American Friends Service Committee to make a survey as to the necessity and advisability of establishing a Quaker Center in Geneva. The main purpose in creating such a Center was to promote Peace Education. There are three of these centers in Europe, one each in London, Paris, and Geneva. One can easily recognize the strategic value of locating the Center in Geneva, which is one of the historic crossroads of the world. As testified by Dr. Newlin, "Every day one sees a representative of a different nation or nationality." His two children, Joan and Jimmy, were recipients of invaluable experience by attending a school which was supervised by professors from 15 countries and attended by youngsters from 35 countries.

While in Europe, Dr. Newlin was delegated to represent the Five Year Meeting of Friends at the World Council of Churches which met in Amsterdam, Holland. At Amsterdam, he was elected to represent

After the Center was established in November, 1947, Dr. and Mrs. Newlin served as directors of the Center until July 12, when they started on their journey home. En route the Newlin family spent a few days in France, England, Holland, and Germany.

The student body extends a hearty "Welcome Back" to Dr. Newlin and family and looks forward to an opportunity of sharing some of their enriching experiences.
