Campus Poll:

From Berlin To World War?

by Paul Knight

This week, in an attempt to bridge the gap from last spring, students were polled on perhaps the most burning issue of the summer:

"Would you support the military defense of Berlin even if defending the city would mean the advent of World War III?"

Yes, I would, because I believe communism must be stopped somewhere, so why not in Berlin, the city that is a symbol of the free world? If we stand firm on the question of defending the city I don't think we will lose it. I firmly believe the Russians do not want a total war.—STEEN SPOVE.

Yes, if only through the defense of Berlin, we could proclaim our determination to uphold our basic beliefs in the right of the individual to life, liberty, and the pursuit of happiness. I believe these ideals are worth any price.—CHARLES BAKER.

No. Military defense in Berlin only provokes the communists for an excuse to throw the world into a holocaust. The World War II treaty gives the West rights in the city. If the communists violate the treaty, they will be looked down upon. Military defense only builds up tension. I believe the U.N. could help settle the problem, since the four powers can't agree. —DEETS MCCULLEN.

MSG Notes

by Don Raiford

The MSG, in its initial meeting on September 25, discussed at length the recent ruling that men students must wear coats and ties to all evening meals and to the noon meal on Sundays. The representatives met with the Committee on Counseling on September 28 for further consideration of the matter. The committee reported that the faculty had become concerned with the poor dress habits of a segment of the student population. Men students were reportedly appearing in the dining hall wearing T-shirts, bermudas, dungarees, sweat shirts, and gym shoes — none of which is appropriate at any meal. Acceptable dress consists of coats and ties for evening meals and the Sunday meal and slacks with shirts tucked in for all other meals.

The MSG requests that all students familiarize themselves with the campus traffic regulations. Traffic violation tickets have been printed, and periodic checks will be made by MSG members.

The council decided that the 48 men students living in the new Frazier Apartments should elect a representative to MSG.

A proctor system to insure quietness in the men's dormitories was discussed. This was deemed necessary because of the closing of King Hall to night study. Periodic spot checks on rooms for damage and cleanliness was also brought under discussion. No decision was reached, and these items were referred to the agenda for the next meeting.

Newly-elected officers of the MSG are Ken Ward, vice-president, and David Miller, secretary-treasurer.

Left to right, are: Carl W. Galloway, registrar; Dr. Robert R. Bryden, professor of biology; Marion Townsend, assistant professor of English; Mr. J. R. Boyd, associate professor of mathematics; Dr. George W. Cobb, associate professor of English; Dr. Ilma T. Morell, instructor in mathematics and Mrs. Nell Swaim Laws, library assistant.

Faculty Increases by Eight

This year Guilford College has added eight new and highly qualified members to its staff:

JAMES R. BOYD, Associate Professor of Mathematics, comes from Arlington State College, Arlington, Texas. He received his B.S. degree from Trinity University and his M.S. from North Texas State College, and is planning further studies at the University of North Carolina. Mr. Boyd has published several abstracts in the *Math Monthly*. Last summer he received a grant from the National Science Foundation in a reserved Participation program at Texas A. & M. College.

DR. ROBERT R. BRYDEN, biology professor, comes to us from High Point College, where he served as Associate Mathematics Professor. He holds these degrees: a B.S. from Mount Union College, Alliance, Ohio; the M.S. from Ohio State University; and a Ph.D. from Vanderbilt University. Dr. Bryden has received research grants from the Academy of Arts and Sciences, the Tennessee Academy of Sciences and from Sigma Xi. Before coming to Guilford Dr. Bryden had taught in several schools: the University of Akron, Middle Tennessee State College. He also served on the U. S. Atomic Energy Commission and

the Science Division at Union College.

CARL W. GALLOWAY, Registrar, holds the B.S. from Western Carolina and the M.Ed. from the University of North Carolina. He has served twelve years as teacher and principal in N. C. schools. As business manager of the N. C. State Prison System he helped to establish the Prisoner Rehabilitation program. Mr. Galloway has also done much literary work, the most important work being his book of poetry, *This Is My Country*.

DR. GEORGE W. COBB, Associate Professor of English, received the A.B. and M.A. from Emory University and the Ph.D. from Johns Hopkins. Before teaching, Dr. Cobb was for twelve years a minister. He has taught at Friends University and has headed the English Department at Tusculum College. Before coming to Guilford he taught at Westminster College, New Wilmington, Pa. His wife is also a teacher and their three children have college degrees and are teaching.

MRS. NELL SWAIM LAWS, the new Library Assistant, comes to Guilford College with experience in library as well as secretarial work.

DR. ILMA T. MORELL, Mathematics professor, received her B.S. from the Friends School and her Doctor of Science degree from the University of Havana. In Cuba, Dr. Morell's father was principal for 31 years and her mother taught there for 38 years. Her parents are now planning to live in one of the Frazier Apartments on campus.

MRS. MARION TOWNSEND, Assistant Professor of English, earned her A.B. from Tufts University and her M.A. at Duke. After her husband's death, she returned to teaching. For many years Charlotte has been her home. Her many interests include cultural organizations, musical groups—she plays the cello, and writing. Often when you open one of Robert Frost's books, you see the dedication, "To my Cousin." This cousin is Mrs. Townsend.

MR. RICHARD C. WARD, Assistant Professor of Biology, has his B.S. from the University of Connecticut and the M.S. from the University of Massachusetts. Before coming to Guilford, Mr. Ward had taught at Morgan State College in Baltimore, the University of Massachusetts, and the University of Vermont.

New Site for Homecoming

Plans for Homecoming activities on October 28th have been announced by Gene Key, chairman of the Homecoming Committee. The half-time program will feature the dedication of the Armfield Center, the parade of floats, and the crowning of the Queen. Trophies are to be awarded in the following categories: (1) Best dormitory decoration; (2) Best boys' dormitory decoration; (3) Best girls' dormitory decoration; (4) Best float.

Alumni and other guests will dine in Founders Hall. The annual Homecoming dance sponsored by the W.A.A. will begin at 8:00 p.m. in the college gymnasium.

Nominations are now open for Homecoming Queen. Any campus organization, class, or recognized group may sponsor a candidate. Nominations must be in the GUILFORDIAN office by noon, Friday, October 20. Presentation of the nominees and the election will be conducted on Monday, October 23, at 10:30 a.m.

Campus Chest Underway

Donations covering foreign relief, education abroad, and medical research are being incorporated into one general fund to be collected during the Campus Chest drive, which began here Monday, October 9, and will close on October 30. Four major agencies will receive portions of the general funds amounting to \$1650 as planned by the Steering Committee of the Chest drive.

One agency, the United Fund, which incorporates local welfare agencies, will receive approximately \$1,000.

Other portions will be given for foreign relief under the American Friends Service Committee and CARE function. CARE will sponsor a crusade for food and tools. A share of \$235 will be allotted here.

A sum of \$255 will be given for aid to education abroad. This fund sponsors donations to World University students, the International University of Japan, and the Near East College Association.

Medical Research for combatting major diseases will receive \$160.

This will enable studies to be conducted in heart diseases, cancer, leprosy, and tuberculosis.

Students, faculty and staff have been urged to meet the planned budget: \$725 from students; \$925 from faculty and staff. The 1961-62 budget is a \$100 increase over the past year's budget.

Guilford Commended

Guilford College has received, from the World University Service, a letter of commendation for the contribution made in furthering international understanding during the past academic year. A special note of congratulation was extended to Dr. J. Curt Victorius for his role in this endeavor.

As part of the program \$95.00 from the annual Campus Chest campaign was contributed to student international self-help and mutual assistance projects sponsored by WUS.

WUS represents an international arm of academic life offering technical assistance to campuses in need on a campus-to-campus and student-to-student basis. It is now organized in some 41 nations.

Fourteen New Dana Scholars

This year twenty Guilford students have been awarded \$600 Dana Scholarships. These scholarships are awarded by a committee consisting of the Academic Dean, the Dean of Men, the Dean of Women, three full professors, elected by the faculty, with the president of the college serving as chairman. To be eligible for consideration, men and women students must have completed a full academic year or its equivalent as a duly enrolled student at Guilford College. During this year such a student must have demonstrated marked quality of character and evidence of leadership, and have acquired a minimum academic quality average of 2.00. The scholarship committee then makes selections from the available candidates after careful study of their complete records and after personal interviews.

A Dana Scholar serves Guilford College five hours each week, acting as a teaching assistant in his major field, or planning, directing or leading an assembly. A Dana scholarship may be renewed each successive year during the student's college career, provided the standards are maintained and there is evidence of increasing maturity, growth in understanding of the college program and purpose, and of the development of effective leadership.

The new Dana Scholars are as follows:

Judy Allen, from Hyattsville, Md., is a biology major. She is extremely active in campus organizations. Judy is a member of the Biology Club, Westminster Fellowship, and Women's Student Government. She is dorm president in Mary Hobbs Hall, secretary of the Student Affairs Board, Chief Cheerleader, and chairman of the School Elections Committee. With hobbies of sewing and sports, she plans to enter the field of physical therapy or nursing.

Sarah Andrew, a sophomore from Graham, N. C., is an elementary education major. Her hobbies are reading, swimming, and basketball. She also plays intramural volleyball. Sarah is presently treasurer of the Women's Athletic Association.

Another sophomore, Lois Chase, is a mathematics major. She is from Lynn, Massachusetts, and is a member of the Society of Friends. Lois is very active in the following campus organizations: Women's Athletic Association, Student Christian Association, Choir, Young Friends, and International Relations Club. She is presently treasurer of the Women's Student Government.

Robert Davidson, a sophomore, is an economics major and plans to become a certified public accountant. Bobby is a member of the Choir, Baptist Student Union, Fine Arts Club, German Club, Social Committee, and is leader in the "Four Corners" Quartet. He enjoys cartooning, singing, and collecting records.

A junior, David Green, from Salem, N. J., is a biology major. He is president of the junior class, a member of the Student Christian Association, on the Student Affairs Board, the president's Student Advisory Council, the Social Committee, and the Men's Student Government. David paints, draws, and plays intramural football. He plans to enter the medical profession.
