Dear Editor:

Dear Editor:

I too have been disconcerted about the slow pace often necessary in "determin-ing justice." However, I have learned that this frustrating slowness is sometimes inescapable if we are to maintain object-ivity. Responsible and intelligent solut-

ions rarely come easily. If more time had been taken in writ-ing last week's editorial (If there is need to refer to the article, it can be found for some strange reason, under LETTER TO EDITOR.), our college community may have had something that merited reading. Miss Ghezzi could have found, with little effort, the procedure followed in present-ing a constitution requires that the doc-ument be presented one meeting prior to actual discussion. The reason is fairly obvious. It gives our representatives a chance to develop questions concerning In the past this has not been done, and in one case, there is a constitution which does not have provision for amendment.

Merely by reading the Student Govern-ment Constitution Miss Ghezzi would have realized that the appeals board is a provision of the Student Government Constitution and can not have its own constitution without a major amendment.

Miss Ghezzi's statement about the WSC's and MIG's concern of the usurpation of power is unfounded. Their main concern is that it not be mandatory concern is that it not be mandatory that a student's case be heard before three different boards, but that he be given some choice as to who shall hear the case. I hope in the future MIss Ghezzi will continue attending legislature meet-ings and continue to criticize. Maybe along with us she can learn the im-portance of responsible and objective action action.
