The Human Condition Political Conflict By DOUG SCOTT

Anarchy is by its very nature and that of human nature, only temporary. Man will have some kind of governing structure, formal or informal, based on mu-tually agreeable rules, whether he knows them consciously or not. The goal of these agree-ments is to avoid conflict.

Formal government was born when man gained the agricul-tural capacity to have a food surplus. Six distrinct forms have emerged: monarchy, aristoc-racy, democracy and their degenerate forms, tyranny, olig-archy, and mobocracy. Folk archy, and mobocracy. Folk ways and mores constitute an informal government, existing within a framework of formal government or alone. The structure (which is largely defined by a goal, selfish or other-wise) decides how successful a government will be in avoiding conflict.

In degenerate (or self ful-filling) forms, a government might find war an instrument

might find war an instrument of diplomacy. Pro bono sui(for the good of the people) forms resort to war for national sur-vival (and to preserve national identity) or deep enough national (read: ideological) in-terest. Within any state, the government lessens inter-group conflict. Historical exception dictates mention of Hitler per-secuting Jews and Stalin versus the Russian middle class. The potential for inter-state conflict potential for inter-state conflict seems larger when dealing with

seems larger when dealing with a degenerate government. We have, at this point, a col-lection of national groups, of different backgrounds and goals, existing in close proximity of each other. Those governments desiring peace are barred from the exection of an "enemy." the creation of an "enemy." Governments holding national interests over peace do not have

able to live in society and to live and to deal with people will result.

In addition, it should be an insult to any student to say that he is not capable of controlling his own life. In either the Unit of Living method or the system as it exists, the problem of preparing the student for life is being avoided.

To find out more about what is being done and to speak out for what you want, everyone should come to the Student Legislature meeting tonight at 6:30 in the Leake Room.

Sincerely, Jeff Bloom

For a moment let us r or a moment let us look at the totalitarian form, with Hit-ler, Stalin, and Mao as exam-ples. In two, (Stalin and Mao) revolution and violence were employed to gain power. The demagogue Hitler was elected by his creation of fantastic nationalistic goals for de-pressed (spiritually and economically) Germany as well as his storm trooper tactics. In demostorm trooper tactics. In demo-cratic governments, these men are despised for their crimes against humanity. The fire bomb-ing of Dresden and the use of atomic weapons on Japan is glossed over. Can a democratic government be morally superior to its citizens? It may be seen that all governments, disigned to prevent conflict, can-not avoid all conflict and con-tinue to survive. tinue to survive.

Candy Jar Contest

Kathy Bunch and Mike Mc-Craw tied for 1st place in the Valentine Candy Contest held in the cafeteria last week. There were 839 pieces of candy

in the jar. Kathyguessed836 and Mike guessed 842. Mary Ella Tetterton won2ndplace by guess-Mike

Tetterton won 2nd place by guess-ing 834. The following students receiv-ed honorable mention for their guesses between 800 and 875: J. Thompson, C. Bunn, S. Wub-benhorst., V. Jensen, L. Thomas, D. Young, P. Seymour, B. Dixon, J. Kneisley, J. Scott, M. Mc-Coy, M. Robertson, K. Camp-bell, S. Wessells, N. Wren, R. Wolinsky, M. Houck, K. Lee, B. Garfield, J. Campbell, and K. Marshall. Marshall,

THE GUILFORDIAN Seminar Shows Best, **Worst In Education**

By TORI POTTS

(EDITOR'S NOTE: THE FOL-LOWING IS THE FIRST OF A TWO PART SERIES ON OFF-SEMINARS. CAMPUS NEXT CAMPUS SEMINARS, NEXT WEEK THE GUILFORDIAN WILL PRESENT AN INDEPTH RE-PORT ON THE RECENT NEW YORK SEMINAR.)

YORK SEMINAR.) Education can be an exciting and interesting adventure if you approach the idea with the proper attitude. With the help of Claude Shotts, David Mallery and Larry Elworth, fourteen students discovered this kind of education is Dhildelphie last work in Philadelphia last week. The students went to Philadel-

phia on a Guilford College Off-Campus Seminar on Urban Ed-ucation. The seminar developed from an education course which Bruce Stewart taught at Guilford last semester. The Guilford last semester. The course was a survey of criti-cisms of American public ed-ication and some of the new concepts in education which are gaining wide recognition today. Some of the students in the course and other students who are interested in education went to Philadelphia to get a closer look at the problems and ideas they had been reading about.

BARTRAM HIGH JOHN

The first day of the semi-nar was spent in a large urban high school, John Bartram High School. Bartram is faced with all of the problems of big city schools; drugs, truency, disci-pline problems and had a high drop-out rate. The group was met by Peter Thompson, a young English teacher, who explained some of the problems at Bartram. The school is so overcrowded that it is now run on a split-session. The juniors and seniors come

The juniors and seniors come in the morning until noon, and the freshmen and sophomores go to school from noon until go to scl 4:40 p.m.

4:40 p.m. Students at Bartram have a faculty advisor whom they see for ten minutes every morning in home room. Peter Thomp-son is the advisor for all the

ninth grade students,

The Guilford students went to classes all day at Bartram. They decided at dinner night that though there that were some tinchers who were trying do something about the site to uation, the school was a pretty depressing place.

OUTWARD BOUND

Tuesday was the most active iay of the seminar. The Guil-ford group joined about forty-five other people from schools run by the Society of Friends for a demonstration of the Outward Bound program. The participants were divided into groups of fif-ieen. Each group contained people of all sizes, ages and sexes--teachers, students, grandparents

ieen. Each group contained people of all sizes, ages and sexes--teachers, students, grandparents and children. The groups trouped out into the pouring rain to com-plete a series of tasks which required group cooperation. Each group was supposed to get each of the people in the group over a tree limb which was nine feet off the ground. They walked around on repes which were hung between trees, carried an "accident victim" over a "pit" via a cargo net and walked on a stone wall. Several Guilford students, Carla McKinney, Terry Wyszynski, Bob Shaffer and Marnie Page completed the day by scaling a fifty foot wall. The friendships which developed in those few hours more than compensated for the discomforts of wet muddy clothes and aching muscles. Jeanette Ebel was voted the muddiest

Jeanette and aching muscles. Jeanette Ebel was voted the muddlest member of her group. PAS

PAS The Pennsylvania Advance-ment School was the next school which the group visited. PAS is trying to develop methods and curricula which will reach underachieving students. They are working with 185 eighth grade boys who have high ability levels out low achievement levels. The school is experimenting

The school is experimenting with teaching such things as me-dia, communications and inter-pretive drama instead of the usual school diet of English,

math and social studies. The Guilford students went to classes at PAS and later talked to Charlie Bugg, a Guil-ford graduate who is now workford graduate who is now work-ing with the advanceme.t school. The students attended a class in communications which was run entirely by one of the stu-dents. He used a tape recording of a conversation between a robot and a man in 2443 A.D. The tape, complete with sound effects, was written and produced by students. students.

The next two days were spent in Friends Schools in Phil-adelphia. The groups visited classes at Germantown Friends School, Greenstreet Friends, and Plymouth Meeting Friends.

The Guilford students were impressed by the tremendous a-mount of freedom that seemed to be an integral part of Quaker education.

most painful contrast to John Bartram High School. The week was ended at Chest-nut Hill College, with what was billed by David Mallery as "an epic educational orgy." The speakers were Dwight Allen, President of the University of Mass. School of Education and Douglass Heath, chairman of the psychology Department at Haverford College. Participants in the seminar were Jeanette Ebel, Terry Wys-zynski, Alan Rosenblatt, Gai Frietag, Charlotte Hobby, Tori Potts, Bob Shaffer, Carla Mc-Kinney, Taffy McCoy, Judy Har-vey, Vicki Wyszynski, Mary Lou Yancy, Bonnie Boyles, and Marnie Page. Adult advisors were Mrs. Bell and Mr. Shotts.

Scope Solicits

SCOPE -- Student Council Pollution and Environmentwants ideas from students pass on to Department to of the Interior officials, according to Randy Simmons, SCOPE Co-chairman for the Middle Atlantic States.

lantic States. SCOPE's are independent nine-student advisory councils re-quested by Interior Secretary Hickel for each of the Federal Water Pollution Control Ad-ministration's (FWPCA) nine regions in the Nation to pro-vide student input into the vide student input into growing national reaction the to growing national reaction to pollution. Students on the Middle Atlantic SCOPE represent col-lege and high school students in Pennsylvania, Maryland, Dis-trict of Columbia, Virginia, North Carolina and South Carolina.

WILL RESPOND GOV'T

Simmons stressed that simmons stressed that an ideas that seem to the nine students on the SCOPE to have merit will be forwarded to the Department of the Interior, and a response will be received from the FWPCA regarding the advice.

Simmons said SCOPE can be reached by writing to Post Of-fice Box 5017, Richmond, Vir-ginia 23220.

In addition to its advisory capacity, the SCOPE can pro-vide information literature on pollution to those who want it.

COME GROW WITH COBB

> Representatives of the Cobb County School System were on campus on Monday, Feb-ruary 9, 1970 to interview prospective teach-ers. If you were unable to schedule an in-terview on that day and are interested in employment in the Cobb County Schools, please contact: Clinton J. Taylor, Assistant Superintendent for Personnel Services, Cobb County Schools, Marietta, Georgia. Phone Representatives of the Cobb County School County Schools, Marietta, Georgia. 422-3471
