

New Food Service Discussed

The possibility of changing food services was discussed by the student legislature at the meeting of April 20.

Joel New announced that there was a possibility that individual charges for board may be increased by \$40.

Dale Mandel resigned his position as chairman of the food committee after a brief speech on the lack of student interest and support. John Andrews was elected to replace Mandel.

The Members of the legislature voted to table discussion on the matter of food services and prices until May 4 when the food committee could give a report.

At the May 4 meeting legislators will decide whether to retain or to renew the school's contract with ARA Slater Food Company or to open a new contract with Saga Food Services.

Trustee Report

Dan Hulburt reported on the meeting of the Board of Trustees held April 25. Hulburt is an observer of the board meetings.

Hulburt explained that Units of Living could go into effect only if it received the support of two thirds of the resident students in a campus wide election. This election will be held May 11.

Hulburt announced that according to North Carolina state laws students could not drink alcoholic beverages anywhere except in their private rooms. He was not sure whether or not drinking was permitted in the suite parlors of 1968 dorm.

Women's Hours

Legislators also discussed the decision of the Administrative Council to recommend the rotation system of self-regulation in spite of the majority support for the key system.

SAC Reply

A petition requesting the repeal of an Honor Board verdict of guilty for the offense of plagiarism was rejected by the SAC at a meeting held April 28.

The student's petition was rejected as being without merit and the penalty of a failing grade for the course remains in effect.

The SAC said that a plea of ignorance of plagiarism standards is not a valid defense for a junior at Guilford College.

Revealed Negotiations Too Early

Mendenhall Accuses State

Council Wants Baldhead Preserve

The Conservation Council of North Carolina urges immediate action on the part of the State of North Carolina to acquire Baldhead Island as a State preserve for use as a State Park and scientific research center.

We urge individuals, organizations, and individual members

U. Of Pa. Ph.D. Given In Peace

The University of Pennsylvania has announced the establishment of a graduate program in peace research.

The interdisciplinary program will include various aspects of all fields of social science with particular emphasis of economics.

Research will stress management and control of conflict, the problems of disarmament, and the conversion of industries away from the production of war materials.

The program will be offered next September and will offer master's and doctoral degrees. Three to five students will be enrolled in the first term of the program. Eventually, the total enrollment will be no more than fifteen.

In a telephone interview with *THE GUILFORDIAN* last week, Ed Mendenhall, a partner in Mendenhall-Moore Realtors of High point, who is a Guilford College trustee, charged that the State of North Carolina had revealed aspects of negotiations over controversial Baldhead Island before the negotiations were in fact completed.

Mendenhall made the charge in answer to a question concerning the present state of the negotiations between Carolina Cape Fear Company, the State of North Carolina, and Frank Sherrill, owner of the island. Mendenhall replied, "We don't reveal aspects of the negotiations

before they are completed like the State does."

Mendenhall went on to clarify that he is the President of the Carolina Cape Fear Corporation and that W.R. Henderson is the Chairman of the Board of the Corporation. Several North Carolina newspapers had erroneously stated that Henderson was President of the corporation.

The Carolina Cape Fear Corporation is presently attempting to buy Baldhead Island for development into a resort area. The State of North Carolina, heeding conservationists' pleas, wishes to turn the island into a State Park.

Spillman Receives NSF Math Award

David Spillman has been accepted as a participant in the National Science Foundation undergraduate research program in mathematics. The program will be conducted at the State University of New York at Binghamton. He has received a four-hundred dollar stipend plus a one hundred dollar travel allowance from the University.

Spillman is the only student at Guilford College in the Curriculum II program. Curriculum II is a program of independent

study for "students who in their first two years have demonstrated intellectual talent, imagination, self-direction as well as a high level of academic achievement."

In March of 1969 the Guilford College Mathematics Department published its first *Journal of Undergraduate Mathematics*. Students nationwide contribute to this journal. Spillman has had articles printed in two of its three editions to date.

of organizations to write at once to:

His Excellency, Governor Robert
The State Capitol
Raleigh, North Carolina 27602

Write expressing:

1. Appreciation and support of his stand on Baldhead Island.
2. The need for a special session of the State Legislature at the earliest possible date for the purpose of State acquisition of Baldhead Island.
3. Your reasons for wanting this acquisition.
4. Your willingness to contribute to a public subscription of funds to assist in the purchase of Baldhead Island.

It is urged that copies of the letter be sent to your local State Legislators and to:

Mr. Roy G. Sowers, Jr.,
Director
Board of Conservation & Development
Raleigh, North Carolina 27602

Mr. Gilliam Horton, Chairman
Board of Conservation & Development Box 1283
Wilmington, North Carolina 28401

In addition, *THE GUILFORDIAN* suggests that you write the President of the Carolina Cape Fear Corporation:

Mr. Ed Mendenhall
1003 Parkwood Circle
High Point, N. C.

Mr. Mendenhall is a Guilford College Trustee.
