

## Forman and the Senate

by Pat Thompson

If you're ever confronted with issues of Guilford's political arena, the guy to see is Bob Forman.

Forman, president of the Student Senate, is a second semester senior from suburban Philadelphia. A life-long resident of Philly, Bob came to Guilford at the age of seventeen.

He admits that he was not politically oriented upon arriving here. In fact, the very first political position held by Forman was obtained "illegally". It seems that during his sophomore year, Forman had a friend in Senate who was unable to attend regular meetings, so he volunteered Forman to take his place.

Now that Forman is (legally) president of the Student Senate, the organization has already begun to work toward and obtain changes in such areas as: visitation hours,

increase in Senate budget, and an expanded Senate in number. There are about fifty students represented by each senator.

When asked about the student/administration relationship, the president commented: "There's an inverse relationship between the amount of power a group has and the distance they are from the school--i.e. the Board of Trustees and Student Senate."

Future plans of the Senate include: sharpening communication on campus, and a look into student rights. Also, in the very near future, all faculty committees will have equal student representation.

Senate meetings are held Wednesdays at 7:00 p.m. in the Board Room of New Garden Hall. Everyone is welcome to come and voice their opinions.

Oh yeah! Bob wants to say hello to Grandma Irene. Hi Gramps!
