# January 29, 1981

Dear Mom,  
Finally got a chance to write a letter home. My company has been leading the drive north from -- and it hasn't been as easy as we were told it was going to be.

You know, the desert here kind of reminds me of the when we used to live in Vegas; it's the same old sand, even though it's on the other side of the world. Only this time I'm driving a tank instead of a dune buggy, and knocking down the cactus instead of collecting them. Boy, would Dr. Fulcher love some of these ones!

I miss ya, Mom, and the whole family, too. I know we all said we'd see each other soon again at the base, but I don't think I'm going to be home all that quick. We've been fighting pretty hard, but so far the going's been slow. So don't get your heart set on my returning "as fast as a bare-assed farmer from a cold outhouse seat" like I joked I would.

Have you heard from Mike or Paul yet? I got word from one of my buddies up in -- that he knows a Mike Carey in his division, so that's probably where you'll get a letter from next.

How are things back in the States? It feels real funny writing that; it sounds like I am writing a letter from Munich and having fun (I Wish!) Instead, I'm popping wheelies on Iranian oil fields.

How's Jimmy-boy doing in his new -- or rather old -- office? I hope he stops taking victory toasts and going to inaugural balls long enough to cast a eye over on this part of the world here. I honestly don't think too many people know what's going on over here, or else they're doing an excellent job of keeping it secret. We keep getting conflicting orders on where to go, when to move out, what to take with us, and so on and so on.

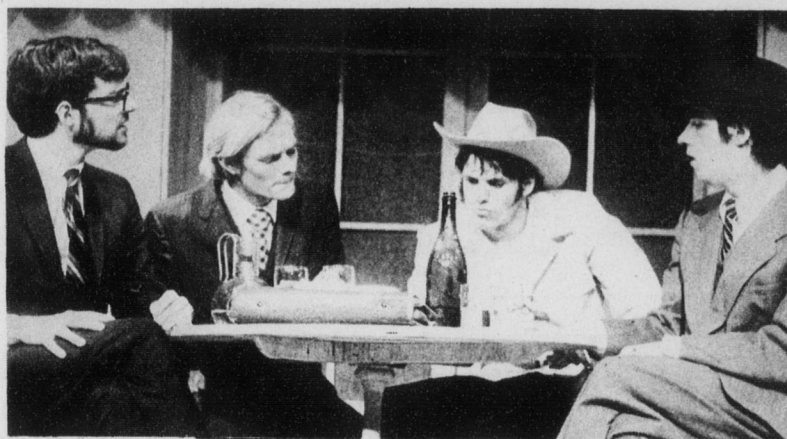

*Only this time I'm driving a tank instead of a dune buggy, and knocking down the cactus instead of collecting them.*

But I guess that's war. A funny thing happened the other day. We were eating what they euphemistically call dinner when we decided we could do without its deliciousness in exchange for some good fun. So we took our "food" and very carefully stuffed it into this very obnoxious person's coat pockets. Then I very innocently and nonchalantly asked him for a light. It was real hard not to laugh when his hand came out of his pocket with instant potatoes all over it!

Enough of this foolishness for now. I manage to read a little bit every once in a while, but I'm pretty busy most of the time, or too tired. I'm kind of upset that this came right in the middle of school. I got a feeling it's going to take a little while to catch up with everything when I get back, but I'll cross that bridge when I get to it.

Well, I got guard duty tonight (lucky me), and I'd like to get in a little poker before then, so I'll say goodbye for now. I'll try to get off another letter to you as soon as possible, but rumor has it we're getting up early tomorrow and going off on a long run. It doesn't sound like it's going to be short or easy.

Say hi to the Whitcombs and everybody else at home for me. Is Mr. Whitcomb still mad about not seeing the Olympics on TV this summer? Keep those cards and letters coming. Hope I see ya soon.

Like these gentlemen, you can become involved in your school and volunteer for the Serendipity Steering committee! Pickup your application at the Student Activities office today!

## Get involved in Serendipity

Serendipity 1980 promises to be better than ever because of the hard work of several groups that began meeting right after last year's event.

The Quality of Campus Life sub-committee concerned with Serendipity has recommended to the Committee Senate that this year's event be expanded to include all factions of the community (students, faculty and administration). The sub-committee believes that by involving all these groups, Serendipity can become a unifying force for the entire community, an ideal in keeping with the Quaker heritage of Guilford.

A Serendipity Steering Committee will be established to coordinate all events sponsored by the different campus groups.

This committee will be composed of a chairperson and eight members, who will be selected by the President and Vice-president of both the Senate and College Union along with the Director of Student Activities.

The committee will be responsible for stimulating the various factions of the community and coordinating campus activities.

This body will become the forum for ideas concerning Serendipity, a barometer of campus wants and needs about the events, and an effective representative body to all factions of the community.

If Serendipity is to be successful, all people and groups are urged to become involved

not only as participants, but also as organizers and planners.

Students interested in being the chairperson or a member of the Serendipity Steering Committee should ask themselves the following qualifying questions:

Are they willing to devote a great deal of time to this project? Do they feel that they have the energy and creativity to help stimulate this project? What experience with planning and carrying out campus activities do they have?

Answers to these questions and any other information or qualifications should be written on the application. Applications must be turned in to the Student Activities Office by 12:00 p.m. Friday, February 1.

## Talk on Afghanistan

The Society for the Advancement of International Order is sponsoring a talk by Dr. William E. Schmickle on "Afghanistan: Crisis at the Top of the World," at 8:00 p.m. on Sunday, February 3rd in Founders Gallery.

Dr. Schmickle will focus his remarks on the clash of Soviet and U.S. foreign policy over Afghanistan and the possible effects of the invasion on Soviet-American relations and world stability.

The Soviet invasion of Afghanistan began at the end of last year and has drawn sharp criticism from most of the world's nations. The response

of the United States, however, has been one of the most severe, including economic boycotts, proposals of increased aid to China and Pakistan, and the possible boycott of the 1980 Moscow summer Olympic games.

No stranger to Soviet foreign policy, Dr. Schmickle spent a year at the Institute of Soviet and East European Studies at the University of Glasgow before beginning doctoral work at Duke University.

The S.A.I.O. is a campus organization dedicated to increasing student awareness and involvement in international affairs and organization.
