**May We Present . . .**

The subject of our "May We Present" feature is Grady Combs, third shift warp hanger at High Point. Grady is an enthusiastic fox hunter and the picture at the right shows him with some of his favorite fox hounds. His dog pack presently consists of seven old dogs and five puppies. He usually carries some of the puppies along on each hunt for training.

Grady says that the best fox hunting country is in Stokes County in the vicinity of Suaratown Mountain. Starting out in the late afternoon, he and his friends often run the fox all night if he is not caught sooner. So vigorous is the role that the dogs play that they become completely exhausted at the end of the run and have to be carried back to the car. Of course Grady doesn't follow the dogs on foot but pursues the fox in his car.

Foxes are so plentiful in Stokes County that they often times slip into the local resident's back yard and kill chickens. Both the red and the gray variety are to be found in this vicinity. Grady has a trailer which he uses for hauling the dogs and on a typical hunt, he and his companions carry approximately 20 to 30 dogs in the pack. He says that the season will really be getting good in the spring. We are sorry that we are not able to arrange a picture of Grady with one of the foxy little creatures since spring is still just around the corner.
