Miss Jeanne Robeson was the guest of Laura Howell.

### EXCHANGES

#### INDIA STRUGGLING WITH ILLITERACY

The government of Punjab, India, is seriously attacking the colossal problem of illiteracy. Seventy thousand boys were added to the school enrollment in 1921-'22 and 150,000 in 1922-'23, but it is exceedingly difficult to keep them in school. Three-fifths of them dropt out before entering the second class, and less than one-fourth continue to the fourth class. Even of those who remain long enough to be classed as literate many soon relapse after leaving school into the mass of illiterates about them.

A beginning has been made in adult education and adult pupils who show competence and enthusiasm often attain literacy after six months tuition.—*Ex.*

#### LATIN-AMERICANS WILL INSPECT N. C. HIGHWAY CONDITIONS

An intensive field study of American highways and highway transport will be made during the coming summer by representatives of 20 Latin-American countries. The party will be the guests of the Highway Education Board. It is proposed to conduct the visitors on a tour of about three weeks through several of the States which have been most active in highway construction.—*Ex.*

Chapel Hill will have its brand new Pickwick Theatre by May 1st. Work began on the new Pick about a week after the old structure burned down in the memorable midnight fire of some weeks ago. The new Pickwick will seat 125 more people than the old show house did. It will seat 725 people in a theatre 50 by 95 feet in dimensions.

The new building when completed will be one of Chapel Hill's handsomest structures.

The trustees at Gettysburg have decided to abolish co-education. They were greatly influenced by the sentiment around the campus that this college should be a man's institution.—*Exchange.*

Students of the College of Arts and Science at Cornell will receive along with the semester registration card a questionnaire aiming to supply full information regarding their life, tastes, tendencies, and scholastic records. The faculty is then able to recommend men not only on the basis of their scholastic record, but on that of their life outside the classrooms.—*Exchange.*
