Fall Concerts Opens at Salem

The fall series of concerts by the Salem College School of Music opened on a high note last Monday night with a recital by Dean Charles G. Vardell Jr., organist, and Ernest Lesile Schoffeld, bartlone. Performing to a keenly appreciative audience in a program which was also broadcast over Radio Station WSJS,these two artists offered a musical entertainment that set an unusually high standard for future events of its kind.

or this group were "Morgen,"
"Allewselen," Traim Durch Die
Denmerung, and "Jacignung."
The first selection in Mr. Vardell's scond group, "Colloquy With
the Swallows," by M. Enrico Bossi,
was played with a keen appreciation
and understanding of these little
feathered musicians of the air. The
"Choral Prelude" of Brahms with
its intricate harmonies was impressive in its dignity and in the depth
of its spiritual conception. The
quaint charm of the dainty "Minuctto Antico e Musetta" by Pictro A.
Yon, completely captivated the andicence.

that set an unusually high standard for future events of its kind.

Dean Vardell opened the program with the "Grande Pilec Symphonique"in three movements by Cesar Franck. The orehestral impressions secured by Mr. Vardell and the beautiful singing quality which he obtained throughout the piece, added to the skill of the organist, united to produce a magnificent effect. The first movement ended in a quiet manner which was taken up in the service and conducted in the sweet, show, measured some produce an amgnificent effect. Mathematics Club Holds First Meeting

Miss Hastings Makes Delight-ful Talk On "The Magic Square"

The Mathematics Club held its first meeting for the year, Wednes-day night in the Campus Living Room of the Alice Clewell Build-ing. Part of the time was devoted to a business session in which plans for the thick catheline for the year.

to a business session in which plans for the club's activities for the present year were discussed.

After a brief business meeting, Miss Hastings made an unusually interesting talk on "The Mage in the subject by pointing out the differences in the ignorant and the educated person. The ignorant person believes anything he sees and hears proof and reason for everything. Wiss Hastings stated that this out. proof and reason for everything. Miss Hastings stated that this cu-

Miss Hastings stated that this cu-riosity and scepticism of the learned have caused many such puzzles or Magic Squares, of varying degrees of difficulty to be solved. Although the Mathematics Club, as yet, has not fully concluded its plans for the year, the program promises to be one of navelty and
