

Legislative Board Passes Three Student Petitions

At the first meeting of the Legislative Board Wednesday night, three student petitions were passed.

The first of the petitions passed was that the on-campus vice-president be made a member of the nominating committee by virtue of her office. This petition will be brought up before the student body to be voted on as it involves changing the student government constitution.

Later Hours Sunday Nights

The second petition passed stated that the hours which students be required to return to campus on Sunday night be the same as on week nights; that is, seniors must return by 11 p. m., juniors by 10:45 p. m., and sophomores and freshmen by 10:30 p. m.

More Nights For Juniors

The third petition passed stated that juniors maintaining a C- average be allowed six nights out a month first semester and eight nights out a month second semester to be used at their own discretion. Those juniors who do not maintain a C- average will have one night out a week first semester and two nights out a week second semester as is already stated in the handbook under junior privileges.

Three Petitions Rejected

Three student petitions were not submitted to the legislative board as they had already been rejected by the executive board. These rejected petitions concerned unlimited light cuts for all upperclassmen, smoking in rooms, and 'Seniors' dates remaining until one o'clock after a dance. The first of these petitions was refused because of the many complaints already received from parents concerning their daughter's lack of rest. The college administration must at all times keep the health of the students in mind. The members of the board, also, rejected the petition on the basis that students do not use their light cuts for studying only as they should. Until the students realize their responsibility and use their two light cuts only when necessary, the board does not see fit to grant the suggested petition.

The second of the petitions was rejected because of the very strict fire insurance rules to which the administration is confined. Because of the old buildings, the board feels that the designated smoke rooms should be the only places reserved for smoking.

The third petition concerning seniors' dates leaving campus at one o'clock after dances was rejected due to the noise and confusion it causes on the square. Students are reminded that one o'clock is Sunday morning and the noise and confusion of people leaving at twelve-thirty and again at one o'clock would be very bothersome to the neighbors.

Moravians Have Special Service

The 175th anniversary of the organization of the Home Church was marked Wednesday, November 13. The music for the anniversary season was arranged and orchestrated by the Music Director, Mr. Wendell J. Rider. Through the courtesy of the Church Archivist, Dr. Adelaide Fries, Mr. Rider has collected and arranged the hymns and anthems.

The hymns and scripture lessons of this service were those which were used by the Church fathers at the Lovefeast Service on November 13, 1771. The anthems were sung at the Anniversary Lovefeast on November 13, 1800, the date of the dedication of the present church building. As in the original usage, stringed instruments accompanied the choir. The Anniversary Music was in exact reproduction of the original except it had been translated into English from German.

The anniversary service opened with "Fantasia" by Bach. Dr. Rondthaler led the congregation in prayer. Rev. Person read the Scripture from the Moravian Text Book, and Dr. Adelaide L. Fries delivered an address on "The Founding of Salem."

The Right Reverend J. Kenneth Pfuhl led the congregation in prayer on one book—the Bible, one God—the Lord, one kingdom—Heaven.

Among the Salem students participating were Becky Clapp, soloist; Geraldine Purell, Jean Sloan, and Jimmie Littlejohn, choir; and Wolfgang Siebel, violinist.

It is interesting to note that 300 people were present at the 1st and 175th anniversary services.

Science Gift Is Announced

The first unsolicited outside gift to the Science Building came Monday to Miss Marsh, as the result of the Announcement of the Project in the October issue **ALUMNAE RECORD**. It was from Dr. Helen Barton head of the Mathematics Department at Woman's College, Greensboro, who taught science at Salem 1915-19. Quoting from the letter accompanying a generous check:

"I am deeply interested in the Anniversary Project—the New Science Building. Will I ever forget my days at Salem—trying to teach Biology, Chemistry and Physics in those two small dark rooms in Park Hall, with only two stoves to heat them! While I taught in one, the fire went out in the other. And only three or four windows where you could get enough light to use a microscope. It was a great life and it kept me busy. I am delighted to know that Salem is looking toward a new building and I am enclosing a check together with my best wishes for the successful attaining of the goal."
