

## COUNTY TO INSTALL LOCKERS IN H. S.

### PUPILS AIDED BY N. Y. A.

Sidney Jones

Continuing from last year, the assistance of N. Y. A. workers is again aiding Bailey High School. N. Y. A. not only helps the school, but it is also a great help to the students who are fortunate enough to secure jobs under its administration.

Three of these students, Evelyn Stott, Mozelle Cooper, and Sadie Wells, have jobs in the school cafeteria.

Marie High works as helper under Mr. Walker in his office. Besides giving Mr. Walker more time out of his office, it is giving Marie valuable experience.

### LUNCH ROOM SERVES TWO HUNDRED DAILY

Mozelle Cooper

This year the lunch room is under the direction of the W.P.A. aided in the operation by N.Y.A. workers. In charge of the room is Mrs. Percy Murray assisted by Maggie Lee Glover, Ruby Perry and Mrs. Wade Jouner. Three N.Y.A. girls work two hours each day.

At the present there are over two hundred pupils and teachers served daily. One hundred and fifty of these take plate lunches, consisting of two vegetables, bread, and dessert sold at five cents per plate.

In order to secure W.P.A. support a number of free lunches must be served daily to undernourished children.

### SEMI-PRIVACY ASSURED STUDENTS

W. S. High

To add to the attractiveness and convenience of Bailey's greatly improved school building, there has been purchased recently forty lockers for the high school. The Nash County Board of Education made the purchase of the lockers possible by asking the County Commissioners to provide in the county budget under the title of Capital Outlay a sum for permanent improvements to schools.

Under the direction of Mr. Howton, Agriculture supervisor, the F. F. A. students of Bailey will assemble and install the lockers in the hall on the second floor.

Mr. Walker states that the size of the lockers is sufficient to serve three or four high school pupils.

The students of Bailey High School are discussing enthusiastically the advantages of semi-privacy offered by these lockers.

### GIRLS BEGIN BASKET BALL PRACTICE

Maebelle Bissette

Physical Education period on Tuesday of each week is used by the high school girls as a period for basket-ball practice. Two members of last year's squad, Maebelle Bissette and Estelle Eatmon, also five of last year's substitutes, Josephine Lamm Mary E. Jones, Isabelle Vick, Marie Morgan, and Rachel Jones, are entering into basket ball practice with much enthusiasm this year.

National Registration Day, October 16, found the schools of Bailey and Mt. Pleasant ceased while the teachers of both schools gave their service free to aid in the registration of all men from 21 to 36. The number of registrants in the Bailey precinct were 334.
