

FOURTH GRADE

WHY I LIKE TO COME TO SCHOOL

One can get a lot out of coming to school. He not only gets an education, but he learns many people. At school he learns that other people need to have their way sometimes, instead of him having his always. We learn things to do so we may have good health. We also learn some games at school. I think that going to school is one of the most important things that a young person can do.

WHY I SHOULD DRINK MILK

In drinking milk it helps me to be strong and healthy. We should drink at least a quart of milk a day in order to do our work well. We feel better and are a better playmate. Our teeth are harder and our bones are stronger when we drink our milk every day.

MY BEST FRIEND

My best friend is God. God gives us our food and shelter. He also gives us our clothes. We worship God, and he feels proud of us. We do a great deed when we kneel down to God and pray. We sometimes receive candy or valentines from our friends, and we forget to thank God for our goods and thank the person who gives you the gift. It is right to thank the person who gives. But we must also thank God. Although God does not send it to us, we must remember God gave us the man who made the first Valentine day, St. Valentine. That is why God is my best Friend. God forgave our sins and He is my best Friend.

Dear Miss Batts and Classmates,

How are you folks feeling since Christmas? I have started to school at Bunn. I like it very well, but it is not like Bailey. My teachers

FIFTH GRADE

THE LINCOLN MEMORIAL

The Lincoln Memorial is in Washington, D. C. This memorial was built in memory of the great president, Abraham Lincoln. The statue is made of pure white marble surrounded by thirty-six Doric columns, one for each state in the Union at the time of Lincoln's death. On the walls are written the Second Inaugural and the Gettysburg addresses.

THE WHITE HOUSE

The White House has been the home of presidents since John Adams's term. It is the oldest public structure in the Federal city. The building was begun in 1792, and is built of Virginia freestone. It stands in a beautiful site shaded by trees. After the house was burned by the British in 1814, and only the walls were left, it was painted white to cover the marks of the fire. It is now the best known house in the United States.

MT. VERNON

Mt. Vernon was the home of George Washington. It is the most beautiful home in all the United States. There are all kinds of shrubs, trees, and flowers around the house. It is located in Virginia on the Potomac River.

Continued from first column
name is Miss Mitchner. She is nice but I like the way you teach better. We have taken our midterm test this week. I sure hope I passed. I wish you boys and girls were here to help me enjoy the swings and slides at Bunn.

I wish you all would write to me and tell me what you are doing.

A little friend,
Charles Williams
