ADVICE TO SENIORS

Wherever and whenever possible graduates should continue their education in institutions of higher learning and business schools. If this isn't possible, they can continue to educate themselves by means of the radio, newspapers, magazines, and books from the public library. Skilled and semi-skilled workers are needed now as never before.

Prepare yourselves for some particular job whether you go to college or remain at home. For those who remain at home, it will be possible for them to enroll in defense courses. Do this, for the trade you learn may become a source of livelihood in the near future.
