CAR SERVICE

TEN REASONS WHY FOR
WINTER DRIVING YOU SHOULD

1. Have your car washed and waxed.
2. Have your car properly lubricated.
3. Have spark plugs cleaned or renewed.
4. Have new oil cotteradge installed in filter.
5. Have transmission and differential drained and refilled.
6. Properly flush radiator.
7. Have battery hydro-tested.
8. Drain and refill crankcase with winter oil.
9. Get new GOODYEAR tires if needed.
10. Be sure with SHELL gas, Octane road performance, Rating 100.
