

# PRIMARY DEPARTMENT

## ENROLLMENT

Our enrollment at the end of the first two weeks in the primary department was one hundred and sixty-three.

We urge the parents to do all they can to improve the attendance in order that we may gain another teacher. This will enable us to do away with some of the combination grades.

## BEGINNERS

It is quite interesting to watch the little tots during the first few week of school. Some are very eager and anxious to start while others, however, become very nervous and excited. They come to school with tears in their eyes and continue to cry for a day or two.

These little people have a hard time acclimating themselves with the school routine and finding their way around. In the school room every one of them want to talk all at the same time. They can not stay seated in their chairs or sit still long at the time.

Now since the first month is drawing to a close, you can notice improvement has been made. They are beginning to settle down to work and are ready for progress this school year.

## GRADE MOTHERS

Mrs. Glover----Mrs. C. D. Phillips  
Mrs. Carl H. Walker

Miss Batts---Mrs. Easley Strickl and  
Mrs. T. C. May

Miss Quinn----Mrs. T. J. Etheridge  
Mrs. Pete Sanders

Miss Thompson----Mrs. E. T. Manning  
Mrs. C. A. Brown

## SECOND AND THIRD GRADES-Miss Quinn

The children in our room are interested in boats. Many of them had boat rides this summer. Rudolph Lucas had a ride on a ferry. Richard Etheridge saw many kinds of boats in Washington. We have pictures of different kinds of boats drawn by boys and girls in our room.

Anne Morrow brought a book about ships to school. We like to sing the new boat songs that we have learned. Our new reading books have stories and poems that we enjoy reading.

Primary teachers are champion cotton pickers. Miss Thompson is in the lead with 2½ lbs., Miss Quinn runner up with 2 lbs. Anyone desiring extra help call 261, providing "pepsies" are plentiful.
