CHILDREN PLAY AIRPLANE GAME

The children in our room are playing a game to help them have clean, neat habits. Six airplanes were cut from colored paper and given the name of a good habit. Then we put strings on the planes and tied them to a chart.

Each day a child forgets any of the habits this causes the plane to come down.

Today our "CLEAN HANDKERCHIEF" plane is lowest and "NEAT HAIR" highest. Everyone is working hard to get and keep every plane at the top of the chart.

DUTCH CLOCK CREATES INTEREST

We have a clock. It is a DUTCH CLOCK. It is run by electricity. We can tell time by it.

The boys and girls from other rooms come to see the arms of the wind mill in our clock go around.-First Grade
