

"LEARNING TO DO
DOING TO LEARN.
LEARNING TO LIVE
LIVING TO SERVE."

Workshop Secures New Equipment

Equipment amounting to \$1,250.00 has been secured for the Bailey High Agricultural department since the first of January. Some of the tools, included are handsaw, jointer, rip saw, acetyline welder, electric sander, electric grinders, and several hand tools. With this new added equipment the boys are more interested and are, therefore, able to do more efficient work.

BOYS BUILD VARIED ARTICLES IN SHOP

For the past month the agricultural boys have been working in the shop. Among the articles made by them are shoe-shine boxes, milk stools, magazine racks, biddy feeders, hog feeder, book cases, lawn chairs, single trees, breast yokes, scoops, floor lamps, biddy brooders, card tables, magazine and radio tables, water barrels for hogs, work benches, flower boxes, quilting frames, what-nots, medicine cabinets, hammer handles, and other articles.

REGRETS

There has been a lull in the air around the agriculture building since the future farmers learned that Mr. Howton, our very capable teacher, is leaving us after this year. Since Mr. Howton came to Bailey, the F.F.A. has won many honors.

We know the loss of his advice will be tremendous, but we hope to carry this advice far into life. Every member of the Bailey Chapter hopes for Mr. Howton the greatest success in his new position. --F.F.A. Chapter

JEROME VICK'S STORY WINS IN STATE PROJECT CONTEST

Jerome Vick, whose project story of his Spotted Poland China Gilt appeared in the January issue of the Bailey Bugle, won the project story contest in the March issue of the State Future Farmer paper, "TAR HEEL TALKS!" He was given three dollars for his story. The four best project stories appear in each issue of "Tar Heel Talks!"

MR. HOWTON ASSUMES NEW DUTIES JULY 1

Mr. Howton, who is leaving at the end of this year to give his valuable services to the Peoples Bank in Rocky Mount, wishes to express his appreciation to the boys for their fine cooperation in working with him. He reports that the boys have done very good work in the shop and in other phases of agricultural work as well.

Mr. Howton's new duties will be in the capacity of agricultural adviser for the bank. He will make farm surveys, farm appraisals, and give advice about and aid in purchasing livestock. His work will be very similar to that done in this community, and will, as usual, be in cooperation with agricultural teachers and county agents,
