

# VICTORY CORPS TO BE ORGANIZED IN H. SCHOOL

## BAILEY LAGS IN SCRAP DRIVE

In co-operation with the United States government Bailey school is sponsoring a scrap drive so that the defense factories may continue unlimited production.

First two weeks of the drive totals 15,000 pounds. Encouraging students to increase their poundage, Mr. Walker has announced a free admission to the school movie for each student bringing one hundred pounds and, likewise, to the room in each department of the school leading in pounds a free admission.

### SCHOOLS COMPETE

All schools of Nash County are competing in this drive. To date Bailey is not among the schools leading. Parents are urged to aid in securing the scrap.

## SCHOOL PURCHASES SET OF WORLD BOOKS

For the benefit of the grammar grades as well as high school the library has obtained this fall a new nineteen volume set of World Books.

Mr. Walker announces that the cost was \$87.50 and is to be paid for by monthly payments of \$20.00.

## Special Bulletin From Uncle Sam

Students who haven't brought to school the six cents I requested; please do so at once. I want our soldiers to fight under the best possible conditions; you can help me. You see, five cents of the requested money goes to the Red Cross. I don't need to say anymore, because every American knows what the Red Cross has done and is doing. The other penny of that money helps equip a first-aid kit for some soldier on the fighting front. Come on, Students, this is our war!

UNCLE SAM

## LIBRARIAN RETURNS

Miss Ferrel, former WPA librarian, returns two days a week this year in order to keep the library functioning properly.

For her services she will receive a small salary from the school funds.

High school students may receive books on Tuesday; grammar grades, Wednesday.

Later Mr. Walker hopes to have an NYA girl in charge of the library.

## BOARD TO DETERMINE APPLICANTS QUALITIES

Victory Corps groups or clubs are to be organized in the high school with the beginning of long schedule. To be a member of this organization each student will be required to fill out an application passed upon by a board, probably made up of high school teachers, who will select students qualified for the courses.

### VARIED SUBJECTS

The different groups will study a variety of subjects; as, handling of machinery, first aid, home nursing, duties of fire and air raid wardens, assisting in harvesting of farm crops, and helping in salvage campaigns.

### STATED OBJECTIVES

Three objectives of the corps are (1) to harden young American bodies to fit them for any required services, (2) to develop students spiritually and morally as well as physically, and (3) to train them for defense occupations.

## Honor Roll (FOR SEPTEMBER)

MARGARET BROWN  
FLORENCE JOYNER  
HORACE HIGH  
CARL WALKER JR.
