

JOIN THE RED CROSS

We want to join the Red Cross this year because we know we are helping our men on the battlefield. The money which we give will help to buy bandages and medicine. We may save many lives if we will all make a contribution because the Red Cross needs our money more than ever before. Nearly everyone in the seventh grade has tried to do his part, and we hope every member of our class will belong to the Red Cross very soon.

7th Grade

WHO AM I?

In 1513 this Spaniard explored Florida. He had heard tales of a spring in Florida, a "Fountain of Youth". He thought he could bathe in the waters and remain young forever, but instead of finding the Fountain of Youth he found death. He was shot by an Indian with a poisoned arrow.

OUR FIRST STUDY OF GEOGRAPHY

We have all the books that we have had in others grades and also a new one. It is JOURNEYS IN DISTANT LANDS. At first we looked at the interesting pictures. Now we are studying about the Tigris and Euphrates Rivers. The people travel down these rivers on keleks and koofahs. The keleks can be torn up at the end of the journey. We hope to find our book as interesting the rest of the way as it has been this far.

Fourth Grade

SEVENTH GRADE COLLECTS SCRAP IRON

The seventh grade is trying to help win the war by bringing in scrap iron. We collected about fifteen hundred pounds last week, and we hope to have more than that this week. We know it is our duty to help as much as we can. When we bring scrap iron we are helping the soldiers that are fighting for us. Let's all try to bring in some iron each day as long as the drive is on.
