

CHAS. E. SPENCER CONDUCTS CLASS IN CALISTHENICS

Instruction in correct calisthenics given in Nashville, N. C., Oct. 29 by Mr. Charles E. Spencer of the State Dept. of Raleigh to teachers and pupil representatives creates a desire for more intensive physical training throughout the year. From every room in the Bailey High School teachers and pupils appointed to assist in the physical training program went to Nashville to receive instruction in the correct method of giving exercises. These leaders will conduct the three periods a week devoted to physical education.

Assisting the school teacher in directing outdoor bodily exercise are Harland Perry and Elsie Pearl Eatmon from the eleventh grade, Bobby Stott and Romaine Perry from the tenth grade, and Herbert Morgan and Reba Earp from the ninth.

JOURNALISM CLUB MEETS TRI-WEEKLY

Each Tuesday, Thursday, and Friday various groups in the journalism club responsible for the editing of the Bugle meet with the advisor for instruction in newspaper work.

Three thirty minute periods a week are devoted to journalism. During these periods different groups meet on separate days to discuss, plan, and correct assigned work.

Rent Or Abandon

Recently a little upstir arose in high school over lockers. Returning to their lockers at the end of a period, students found books scattered on top of lockers or on the floor, and a brand new lock placed on the door with the recent owner guarding his newly acquired property.

Exchange of words flew fast for a few minutes--the bell rang!

HISTORY CLASS COLLECTS RELICS OF INTEREST

Relics of historical interest collected by Miss Melba Martin's eight grade history class is on display in the classroom.

Several exhibits ranging from 100 to 175 years of age have been displayed by the students. Included in the collection are a flint-lock musket, 150 years old, loaned by Irvin Finch Jr.; a mus-tache cup, by Faylone

and Kitty Lee Morgan; a slate, thought to be 125 years old, by Nancy Finch; a book that Flora Macdonald presented to a friend and autographed brought by Norman Nixon.

Maps of North Carolina showing the occupations and type of agriculture carried on in different sections of the state are another project near completion by the students.
