

### SENIORS COLLECT MOST POUNDS IN SCRAP DRIVE

Scrap drive, as far as Nash County contest is concerned, ends with Nashville School leading all other schools. Bailey School secured 22,000 pounds.

Mrs. Lassiter's eleventh and twelfth grades, securing 7,179 pounds, leads in the number of pounds gathered by any one room. Leading in the elementary department is the seventh grade with 4,883 pounds, and in the primary department, Miss Harriett Batts' room with 1,204 pounds.

Sarah Morgan Farmer, bringing the most iron for any individual, will receive a prize.

Although the county contest is over, students are urged to continue gathering scrap. Those bringing 100 pounds are still eligible for a free movie ticket.

### YOUTH FELLOWSHIP RINGS BELL

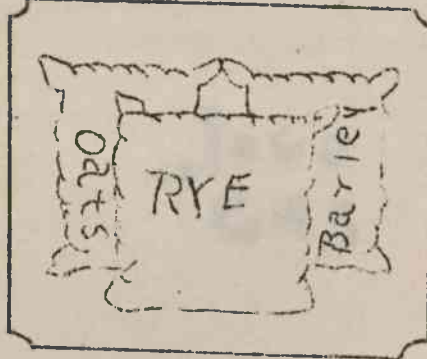

Every day at six o'clock members of the Youth Fellowship Organization voluntarily ring the bells at the Baptist and Methodist churches to remind every one to pray for a Christian victory and the boys in the armed forces. The Youth Fellowship organization is a non-denominational group of boys and girls from 12 to 21 years of age.

The president, Martin Liles, at the last meeting asked, "Won't each member show his reverence at the tolling of the bells by stopping whether older people do or not?"
