

GRAMMAR GRADE DEPARTMENT

WHO AM I?

This history character was born in the city of Genoa, Italy. As a boy he was greatly interested in ships; therefore, he became a sailor. His interest in the study of geography and the book of Marco Polo led him to believe the earth was round. He thought he could find the East by sailing West. For a long time he tried to get Kings of Europe to give ships and sailors to make a voyage to the East. Finally Queen Isabella of Spain furnished three small vessels. With these little ships he crossed the Atlantic ocean and discovered what is now the West Indies. Scott Lewis

Jack Frost

Jack Frost came quietly in the night
He left the meadows all gleaming white.
The trees and the haystacks sparkled in the sun,
As Jack Frost slipped away, he said, "My work is done".

Two Pigs

I had two pigs bright and gay,
They ran from me the other day.
What was the reason they did go?
I cannot tell, for I do not know.

CLASS MAKES CHARM STRINGS

Several weeks ago we decided to make some charm strings for our room. Different members of our class brought gourds of various sizes, pine cones, dried beans, okra, and squash. We painted these things bright red, orange, blue, green, and yellow. When they were dry we were ready to string them. A large gourd was used at the bottom and then we put the cones, beans, okra, and squash higher on the string. When they were finished we hung them up in our room. Some of the class is making a charm string for themselves now.
