

This-That-N'ther

(Phyllis)

The junior and senior boys have started the new year off in a war-minded spirit by beginning drill under Mr. Walker. Quite a bit of confusion was shown among the twenty-three boys, most of whom were drilling for the first time. After a few weeks under "captains" Tapp and Walker they should be able to carry out the simple drill commands with ease and accuracy.

SENIORS

For about thirty students in the senior class the last four months of school has begun. Advice from yours truly is that some of them study a little harder or they are not likely to make the grade this spring. This also goes for other students as well.

FADS

A new fad in high school is the wearing of riding pants by the girls, that is all except the seniors who so far have displayed more dignity. If we can do this, why can't the boys wear our dresses? Might be a good idea at that!

Former Students Notice School Change

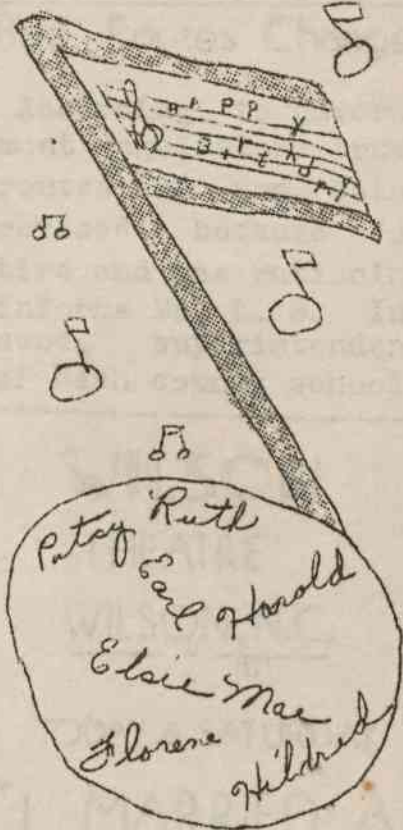

Ruth Beard, Florence Pace, and Iris Pearson, three Bailey alumnae, visited the school New Year's day. In answer to the question concerning their opinion of the school they said, "There have been so many changes we find it difficult to get around".

Florence Pace, a senior at Atlantic Christian College, and Ruth Beard, a teacher at Bell Arthur, near Farmville, spent part of the day in the grammar department observing the different methods of teaching.

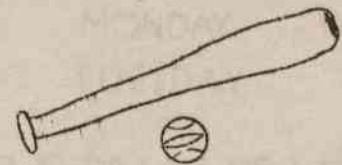

The most coveted thing among the stricken Europeans is United States citizenship.

It is the most precious of all things to the hearts of our fighting forces overseas. They know what they're fighting for--to remain an American citizen.

Will we at home always take it for granted or will we wake up to the fact that it is a great privilege? S.W.
