I Got A Gal In Bailey High School!"

I Wonder

Were the ninth grade girls really glad to see Mr. Rogers the other day or were they just trying to skip Nutrition when they begged Mrs. Rogers to let them ask him in?

To see him back at school did recall freshman year.

In spite of the high hopes the class continued Nutrition, for Mrs. Rogers thinks it has had enough interruptions already.

I guess you'll have to wait until Mrs. Rogers hasn't seen her husband the previous week-end before you do try to pull a fast one, girls.

Commencement Plans Announced

Mr. C.H. Walker states that this arrangement will not change unless the present restrictions are changed.
