

Good, Better, Best
We'll never let it
rest,

Until the good is
better,
and the better best.

HOME ECONOMICS DEPARTMENT

HOME EC. I

Our home economics is easy this year. And that little teacher is certainly a dear. We learn how to cook, to sew, and stay neat. When you learn all these things, its really a treat.

We learn ways of making our body healthy and strong. With nutritious foods we'll keep singing our song. So let's all keep shining and polishing to keep our department right, And we'll never have to worry about a gossiping sight.

Gladys Phillips

UNUSUAL PROJECT TAKEN

That pigs can be raised by girls as well as boys is shown by ninth grade girls as they take this unusual project.

Girls taking this project are Pansy Ray Bissetto, Mary Evelyn Clower, Phyllis Jean Finch, and Evelyn Finch.

GIRLS TO HAVE PARTY

As every student needs a certain amount of "party-going," the tenth grade girls will have a party October 25 at the home of Lucille Finch.

Each girl may invite a boy. They plan to serve refreshments of ice cream and cake.

Pictures Collected

Collecting pictures of women war workers, ninth grade girls plan to add attractive touches to their room by putting these pictures on the board.

HOME EC. II OMITTED

Quite unusual is the fact that there is no second year home economics because of the new eighth grade introduced last year.

Vitamins Stressed

Vitamin study is being stressed in the eight grade so as to understand the value of food in the growth and development of the body.

In connection with this study also, is the when, what, and why of garden planting.
