

### DISCIPLINE NEEDED

When on history class Patsy Ruth Eatmon reached over and deliberately slapped on the shoulder Florence Joyner, Florence only shrugged and gave Patsy a questioning look; but when Patsy repeated the slap, Florence leaned over and raised her hand to strike back.

On second thought, however Florence smiled at Patsy and said, "Thank you, Patsy".

Just in the nick of time Florence remembered the request made to her classmates earlier in the day when she announced that she would need their aid in carrying out her home project--breaking the habit of biting her fingernails.

### News From Our Principal

#### YOUR WASTE PAPER

The scrap paper drive will almost be over before you read this. I am hoping, however, that you will from now until February 15, put forth your very best efforts in this latest salvage program.

What are the causes of the present, acute shortage? They are three in number. 1. Millions of paperboard containers are being sent overseas to our fighting forces every week. These millions are not returned. To do so would place an extra burden on our already heavily loaded shipping. 2. The second reason for the shortage is in the lack of paper pulp.

#### SHORTAGE

This pulp shortage is caused by a lack of manpower in the forests and by a steady decline in the amount of pulpwood available from Canada and other countries. 3. Another reason for the shortage is the fact that paper is actually

used in making weapons of war. Paper is being converted into bomb bands, practice bombs, wing tips, airplane signals, parachute flares, ammunition chests, shell protectors, shell containers, and other essentials. Paper is truly ammunition.

#### TYPES

How may paper be saved? There are four types of paper wanted: 1. Newspaper-----fold flat and tie in bundles 12 inches high. 2. Magazine-tie in bundles 18 inches high. 3. Cardboard boxes and cartons-fold flat and tie in bundles 12 inches high. 4. Waste-basket paper-pack down in a box or a bag. The war effort needs your paper. BRING IT IN! Incidentally, have you bought your bonds and stamps?

#### MRS. LASSITER LEADS

Mrs. Laurine Lassiter, according to best information available, leads in amount of bonds sold any one day. Last Saturday her sales totaled \$2,050.00.
