

SCOUTS AID WAR EFFORT IN NUMEROUS WAYS

Constantly aiding the war effort, Bailey Boy scouts have for the past few weeks collected waste paper, scrap metals, and participated in the presentation of the Honor-Roll Plaque to the Methodist church.

After a compromise reached with principal Weaver, scouts helped to fill a paper car by collecting paper for school drive instead of sponsoring scout drive.

ASSISTANTS

On layman's day at the Bailey Methodist church, scouts attended in uniform and assisted in the service.

At present the scouts are collecting scrap metals. The funds received will help to support the organization.

Mt. Pleasant Settled In Late 1880'S

In the late 1880's a settlement now known as Mt. Pleasant began about three miles northwest of Bailey.

Mr. Billy Cone built the first home and the first store around 1886. 1888 brought the first school followed by the second school in 1900. For several years around 1906 the high school for the Bailey community was there. Mrs. Junior Wynne and Mr. S. E. Eure were the first teachers, Mr. Eure the principal. During the years 1938 and 1939 the present school was built. Glovers, the first post office, was built in the late 1890's. The first two churches were frame buildings with logs to sit on. In 1903 the present church was started.

Mt. Pleasant now boasts a church, school, a dormitory, two stores, and several homes.

I have been unable to learn the origin of the name Mt. Pleasant or whether the community has always been so called. P. R. B.
