

HERE AND NOW

MILK AND IRISH POTATOES were donated to the lunch room by the government.

BOOKKEEPING PRACTICE SETS were completed this month.

SPORT INTERESTS, since the weather has turned warmer, have turned to baseball, jump the rope, and marbles.

TEACHING ON SATURDAYS has been agreed upon in order to make up the days lost because of weather conditions or gasoline shortage. This arrangement will permit school to close as per schedule, May 9.

SCRAP PAPER DRIVE was successful in that it reached its goal of a carload of paper and also had half a carload left. A second carload is expected to be obtained.

FOURTH GRADE by selling seed made \$18.25, which fund they gave to the general school treasury.

THE SCHOOL received \$26.51 as profit from the student pictures purchased last month.

TWO MILK COOLERS have been bought lately for the lunch room.

TWO POTS AND A PRESSURE COOKER are going to be bought as soon as some appear on the market.

Principal To Begin Course in Driving Technique

NEEDED-NEW HEART

The most popular boy in school is Oscar. His poor heart has been broken by nearly all the girls of the ninth grade.

Now they are tearing his heart into bits.

Oscar's heart is dissected by the ninth grade health class in their study of the organs of the body. They take his heart to pieces to examine the parts of the heart.

You see, after all, Oscar is only an artificial man.

B.D.S.

Loyal Supporter

The death of Mr. J. W. Privette recalls to the Bugle Staff his cooperative spirit that he always displayed toward the paper.

Mr. Privette has been a loyal supporter of the Bugle by having an ad in every issue since the paper began circulation.

Mr. W. M. Weaver, principal, is to give here a drivers' course twice a week, second period in the morning, to boys going into the army and to bus drivers.

Those passing the army test will be issued a certificate for them to keep.

Any bus driver finishing the course will be given his driver's license provided he passes the road test.

Requirements demand that bus drivers take the course each year.

Mr. Jack Barnes, a field patrolman for highway safety, will make check ups on the course.
