

PUPILS AID CANADIANS HARVEST TOBACCO CROP

Canadian tobacco growers employed four high school students, Wanda Murray, Billy Murray, Pete Stone, and Ivan Denton, to aid in the housing of tobacco this summer.

Impressions received by these students were that the Canadians are far more conservative than we and that the weather is variable, changing from hot, to cold, to rain on turn.

Similar to our own amusements were the movies and skating rinks, but horse breeding and racing attracts more interest than in North Carolina.

CAFETERIA CANS FOOD FOR BALANCED LUNCHES

After canning 368 number three cans of food, lunchroom workers promise that better meals will be served in the cafeteria.

All the vegetables and fruits, except the pears, were donated by the people of the community.

Assisted by the Girl Scouts, the workers canned 105 number three cans of pears. These pears were bought by the school.

Warning!

Watch your steps students; you'd better behave in Mrs. A. H. Farmer's room!

No, she has no bundle of hickory switches in the corner nor any ring to stick your nose in either. These methods aren't painful enough anyway.

Maybe it's mere accident or perhaps a sly scheme.

How do I know?

Just you peek out her window and at the top you'll see her body guard--an innocent but alert little yellow jacket. Yes he's little but oh so persistent! F.M.J.

Baseball Leads Games

Baseball, softball, and choral training consume the majority of the students' time at the daily period of thirty minutes activity.

Basketball practice will not begin before the first of November.

A study hall for those not interested in any phase of recreational training will be available.

STUDENTS RENDER SERVICE TO SCHOOL AS JANITOR

In the absence of a janitor, students have volunteered to keep the rooms until the janitor returns to his job.

Student volunteers are Bobby Lee Finch, cleaning Mrs. Howard Farmer's room; Marie Lamm, Miss Edith Farmer's room; Clarice Pearson, Mrs. Ruth Watson's room; Virgia Strickland and Berneace Eatmon, Miss Jewel Langley's room.

Fifty cents each per week will be paid to the workers.

The hired janitor, absent because of illness, hopes to report for work later.

Judging by the keen interest manifested in magazine make up by Keith, Edsel, and Harold, the Bugle must be in for competition. What's to be the name of the new magazine?
