

Roads, Buses Double
School's Holidays

Because of the condition of the roads and buses and the absences of too many pupils, Bailey High School closed Wednesday, December 19, for Christmas holidays, two days ahead of schedule. This gave students eleven days instead of the intended nine to celebrate Christmas.

Although all Nash County schools were to open on Monday, December 31, it was declared by Superintendent Insooe that as the roads were practically impassable there would be no school until Wednesday, January 2. Therefore, when by Tuesday the roads were still in a deplorable condition, school was again postponed until January 7, giving students a total of 18 days for Christmas.

Snowflakes Spell Doom
For Class Work

"Look! It's snowing!" whispered someone.

Did I say, "Whispered"? If so all ears must have been tuned on that whisper's wave link, for immediately everyone's head popped up.

From then on the high-pitched voices and restless movements revealed excited emotions.

Visions of playing in the snow, eating snow cream, and making a big, jolly snow man were in the minds of all students, chasing away all thoughts of study.

Some could hardly wait to roll those white fluffy flakes into balls--the first opportunity in two years.
