OR DO WITH OUT

### Girls Fashion Gifts For Classwork

Ninth, tenth, and eleventh grade home economics girls, in connection with their unit on sewing, fashioned for Christmas giving many articles.

Stocking dolls, lapel dolls, rosettes, vanity sets, dresser scarfs, and dish towels were among the gifts made.

### A Typical Class

Maybe you'd like to know how the average home ec. period is spent. You might? Well, you talked me right into it.

As each girl enters, she makes a dash to the mirror to survey her shiny nose, hair, and lipstick, trying to repair any damages before the final bell. There it goes! All scramble to their seats to go through the ordeal of roll-calling.

Amidst general confusion, they finally settle down to sewing. O.B.

### CLUB PRESENTS PROGRAM

A three-part program, planned and directed by FHA club girls, was presented in the school auditorium the night of December 18.

An amateur hour, a talkless skit, and impersonations of the school faculty by students made up the program.

The amount cleared was \$22.

### Household Hints For Homemakers

Spinach is the broom of the stomach.

Meat should not be pressed against the ice in a refrigerator.

Hot water makes a sponge cake much whiter.

Success is the result of perseverance.

Jewelry may be cleaned by putting a little ammonia in water and washing it.

### HOME EC. TID-BITS

All home projects have not yet been handed in.

Curtains for the lunch room, being made by 11th girls, are nearing completion.

Ninth girls made ambrosia and cooked three types of cakes for their party.
