

Lunchroom Desires Meat And Lard

"I wish every parent had to work in the lunch room one day, and then he would learn to appreciate it," states Mrs. C.D. Phillips, who substituted for Mrs. K. F. Lewis to attend a supervisor's meeting at the court house in Nashville on September 25.

Besides students who help during the lunch hour there are five workers in the lunch room: Mrs. Lewis, Mrs. Marshall Williams, Mrs. M. C. O'Neal, Mrs. Wade Joyner, and Mrs. R. E. Thompson.

PRICES

Because of the inflation of prices and wages the cafeteria's lunch fee has increased from ten to fifteen cents.

Approximately 400 students eat in the lunch room daily.

Mrs. Lewis has asked that anyone who has lard or side meat to sell please send or bring it to the lunchroom; otherwise she declares "the cafeteria will be forced to stop operating".

French I Is Fun

Beautiful enunciation is said to come from opening the mouth and permitting the sound to escape. This being the case, French I students should speak beautifully. Happily each student sits on French class with his mouth in a comical shape, brought about by two forces: the attempt to produce the correct sound by the correct position of his lips and tongue and to keep from laughing at the other fellow's mouth. All that is needed is a mirror in front of the room to let each student see himself as others see him. Our uh's, o's, and ah's are complicated, nevertheless, French I is fun.

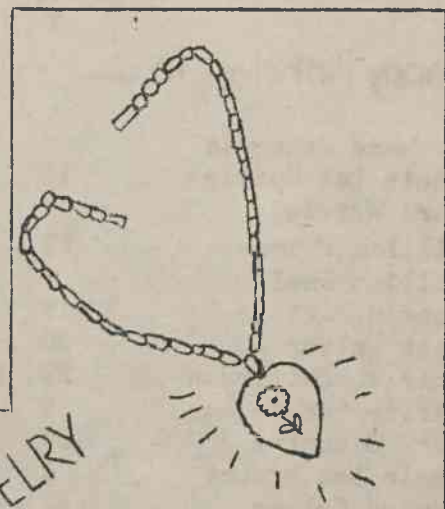

B. Eatmon.
